BETTER PLANTS FOR NEW ENGLAND

RED AND WHITE DOGWOOD (Page 15)

Better Plants for New England

Growing Since 1849

Our last year's catalogue, "BETTER PLANTS FOR NEW ENGLAND," was so enthusiastically received that we decided to continue along the same lines.

Our old friends and new customers appreciated the illustrations and full descriptions which made it easier for them to make their selections.

"BETTER PLANTS FOR NEW ENGLAND" is not a conceited statement. It is a slogan we adopted as a challenge to ourselves and an obligation to you. For over ONE HUNDRED YEARS we have been trying to make this slogan a reality. Modern mechanical equipment has improved our methods of cultivation, production and packing.

We are also continually testing scores of plants and eliminating those that do not possess the

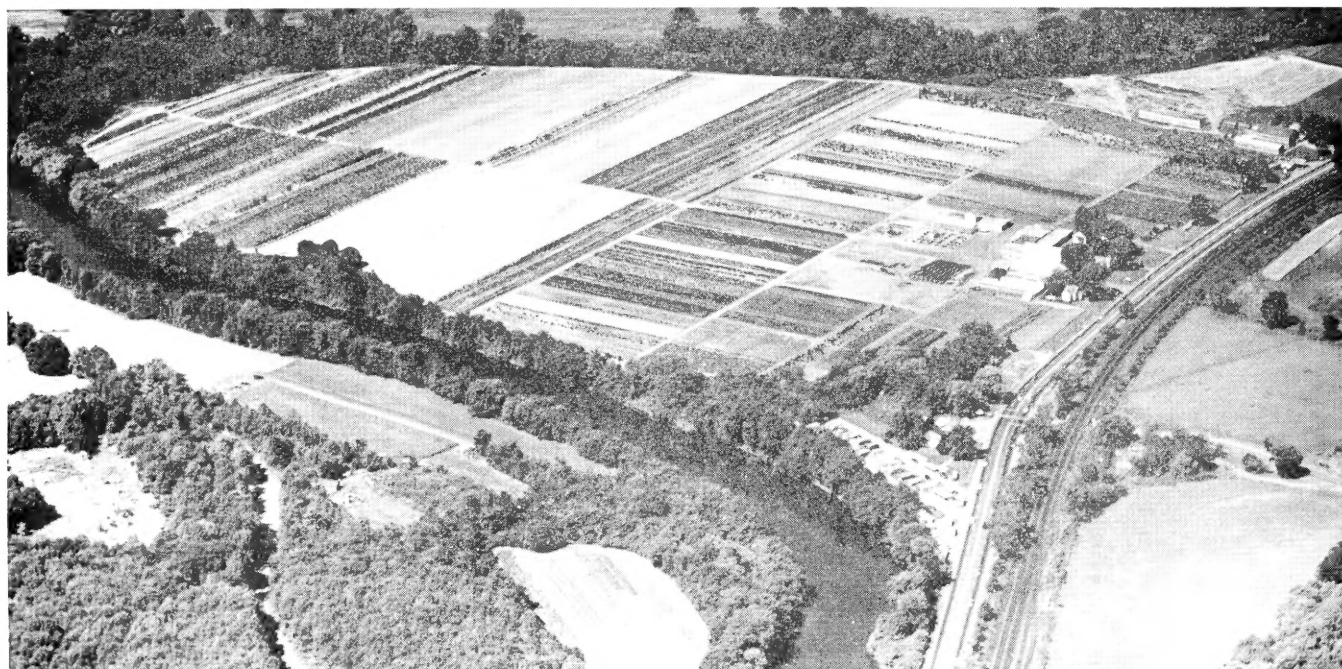

Main office at entrance to nursery.

Yankee hardiness to withstand our rugged climate.

This discarding of inferior varieties assures our customers of receiving only

BETTER PLANTS FOR NEW ENGLAND

Aerial photograph of main nursery showing Route 20 passing by our office and buildings. The Westfield River surrounding the other three sides furnishes an abundant supply of water for irrigation. We are conveniently located six miles from Springfield and two miles from Westfield on Route 20. Another section of the nursery, equally as large, is located across the highway from the main office but is not shown in this picture.

Adams Nursery-Mart

Conveniently located directly back of our office where you will find a comprehensive assortment of

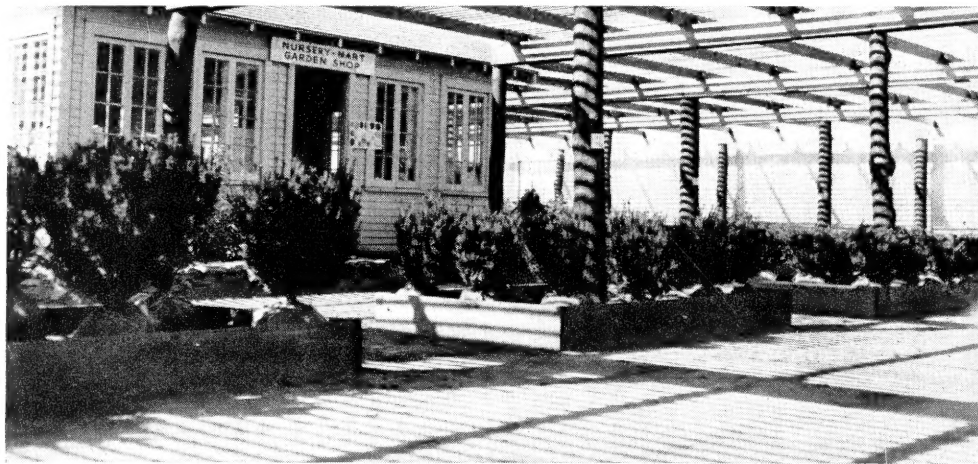

"SHOW WINDOW QUALITY"
plants on display.

We invite you to visit our Nursery-Mart, where you can see and select your Evergreens, Rhododendrons, Azaleas, Fruit Trees, Potted Roses and Perennials, and many other

**"BETTER PLANTS FOR
NEW ENGLAND"**

Each will be labeled with name and price to save you time.

In addition, we will have all the garden accessories, such as Fertilizers, Insecticides, Lime, Peat Moss, Grass Seed, etc.

Well informed salesmen will be handy to help you select the proper plants for the right locations, and answer any questions pertaining to their correct culture.

The ADAMS NURSERY-MART will be open April 1st and every week day for the balance of the planting season during regular business hours. No business will be transacted on Sunday.

We offer you our experience of over one hundred years in solving your plant problems, and invite you to visit our Nursery-Mart. You may go where you please and stay as long as you like. You will not be approached unless you express a desire for service.

Plenty of parking space has been provided adjacent to the Mart.

Landscape Your Home for Privacy and Better Living **Adams Planning and Advisory Service**

We maintain a staff of competent landscape men, professionally trained and experienced to help home owners select the right plants for the proper locations. Whether you have a large estate or a cottage, we are thoroughly equipped to help you.

Perhaps You Would Like

A hedge to give you privacy, a plant barrier to keep out wind and noise, a foundation planting for year round beauty, a Rose garden to bloom all Summer, a flowering shrub border to give color at various seasons, an outdoor living room or a complete plan for planting your home grounds, which can be accomplished on a budget plan.

PLANTING SERVICE DISCONTINUED

Operations on our 200-acre nursery require the full time of our experienced plantmen. Unfortunately they cannot be spared for customer planting and trimming service. We urge our customers to "DO IT YOURSELF," especially on small orders.

For those who desire planting service we will submit a list of available landscape contractors. Our SIX MONTHS GUARANTEE is valid regardless of who plants.

Landscape Service

The following three types of service are available:

1. FREE SERVICE

There is no charge if you bring a photograph or plot plan showing the measurements of existing conditions to our NURSERY-MART. We will discuss your planting problems with you and make suggestions. While you are here you can see the plants recommended.

2. SERVICE FOR A NOMINAL FEE

Should you desire the services of one of our landscape men at your home, there would be a **Service Charge of Five Dollars** payable at time of consultation. This would include their suggestions, and a rough sketch, showing the arrangement of the plants suggested. Telephone for an appointment.

3. LANDSCAPE PLANTING PLANS

Should a complete detailed landscape plan be required we offer this service at a **minimum** charge of \$35.00, payable in advance with this fee scaled according to the size and complexity of the landscape problem. This fee is partially credited to your account on a pro-rated basis, the details of which may be obtained from our office or representative

Information for Our Customers

TERMS: We are glad to extend thirty-day terms to established accounts. Also to open new accounts, via references, if order amounts to \$10.00 or more. On first orders for less than \$10.00, please send check or money order. Our guarantee is void on overdue accounts.

SHIPPING METHODS: Shipments will be forwarded as purchasers direct, but in the absence of instructions we will use our best judgment and forward plants by shortest and safest route.

SHIPPING SEASON: Our Spring shipping season usually begins early in April, and until about the first of June everything can be transplanted. Perennials and stock dug with a ball of earth can be moved at any time during the Summer. Our Fall season starts with the digging of evergreens in August, followed in October by deciduous trees and shrubs. We are not open for business on Sundays.

TAKE IT OFF YOUR INCOME TAX: Storm damage to your shade trees or evergreens caused by unusual weather such as ice storms, hurricanes, is a loss you can deduct on your income tax report.

You should file the following with your claims:

1. Appraisal by local real estate man for your entire property (buildings, land, trees and everything) as to its value the day before the storm and its value in its present condition with broken branches hanging and the ground littered with wreckage. The difference between the appraisals is what you can claim.

2. Estimate by nurseryman as to cost of cleaning your grounds and replacing the destroyed plantings. These costs can be deducted. They only show why your property is worth less.

Post Office Address:

Please address all letters and communications to the

ADAMS NURSERY, INC.

"PLANT IT YOURSELF"

AND SAVE MONEY

Additional pride and satisfaction is gained when you do your own planting and gardening. If your plans are not too ambitious, planting can be a pleasure and a source of relaxation.

Planting requires no special skill and our SIX MONTHS GUARANTEE is the same regardless of who plants.

The rising cost of labor has caused a definite trend to "DO IT YOURSELF." The following sketches demonstrate how easy it is.

HOW TO PLANT

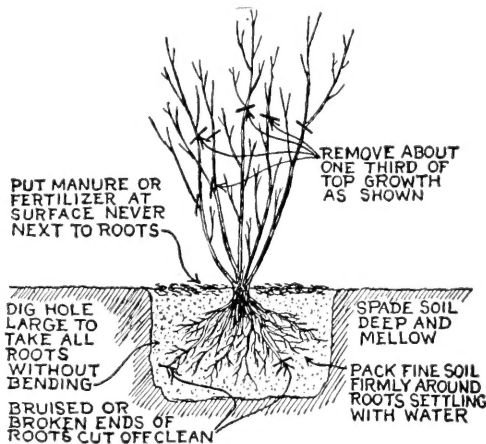

Proper planting, pruning, and watering are essential to the success of nursery stock. The ground should be plowed or spaded deeply. Holes should be large enough so the roots can be spread out without crowding. Soil should be packed firmly around roots so there are no air spaces and so roots are in tight contact with the soil.

PRUNING—Part of the top of the bush or tree must be pruned at time of planting so as to reduce the amount of top the roots have to supply with water while they are getting established. *See illustrations.*

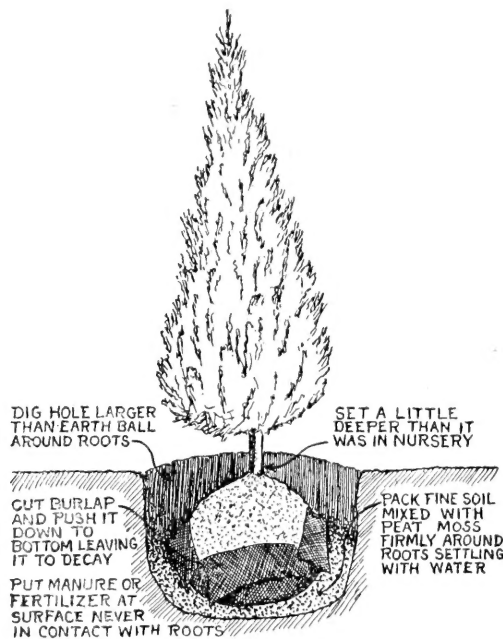

WATERING—Surface sprinkling does very little good. Take nozzle off hose and let water run around plant until ground is thoroughly soaked for a depth of 12 to 18 inches. Never let ground dry out.

MULCH—A mulch of hay, leaves, grass clippings, peat moss, etc., around the base of the plant is very beneficial, and helps to conserve moisture.

FERTILIZER—Should be placed on top of the ground and worked in with a hoe. Never put fresh manure in the hole, for if it comes in contact with the roots it will burn and kill them.

How to Plant Shrubs

Planting Evergreens

AN ADAMS GIFT CERTIFICATE

The Answer to Your
Gift Problems

A plant or tree is always in good taste—always welcome—always suitable for any occasion—Birthdays, Easter, Christmas, House-warmings, Anniversaries or as a Memorial.

Living plants are the gifts that grow in size and value as the years go on. There is no need to ponder WHAT to select; the recipient has the fun of selecting just what he wants here at the nurseries. OR, if you prefer, you may select the plant to be given and there need be no mention of a stipulated amount. The Adams Gift Certificate is so worded that either the particular plant OR the amount given may be specified.

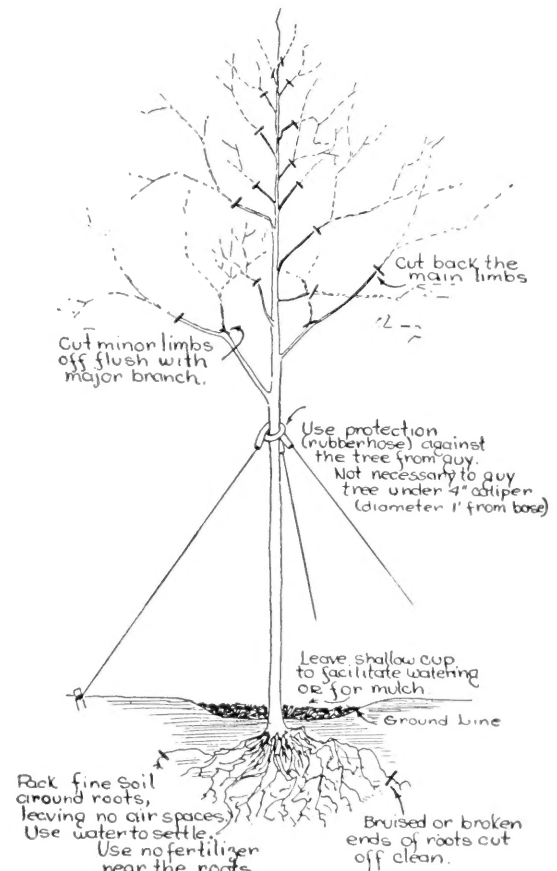

For a Gift Certificate, just
SEND US:

1. The name and address of the person who is to receive the certificate.
2. YOUR name and address.
3. Your check or money order for the amount of the gift.

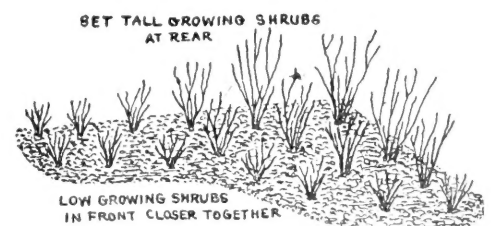

WE WILL:

1. Send the Gift Certificate to the recipient at once (or to you, the donor, if you prefer).
2. Send the Gift Certificate so as to arrive on a certain date if you will tell us the date.

There is no fuss and bother with the Adams Gift Certificate and more and more people are using this intriguing way of remembering—and being remembered.

Planting Trees

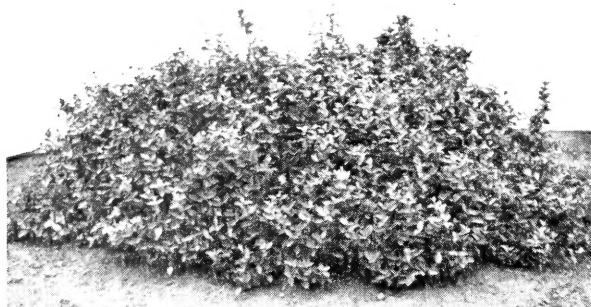

How to Plant Shrubs

A Welcome Addition for Foundation Plantings **Three New Broadleaf Euonymus**

Versatile varieties suitable for foundation plantings, hedges or specimens. Compact in form and green foliage all year. Absolutely hardy and resistant to disease and drought.

Informality is their chief asset although with slight shearing a formal accent plant can be had.

Their soil requirements are not exacting and will grow equally as well in either full sun or partial shade.

Emerald Cushion

Plant Pat. No. 1112

This new variety is extremely dense, compact and slow growing. This is a spreading variety with maximum height of 18 inches. Perfect for the foundation foreground.

15 to 18 in. spread, Balled and Burlapped, \$4.75

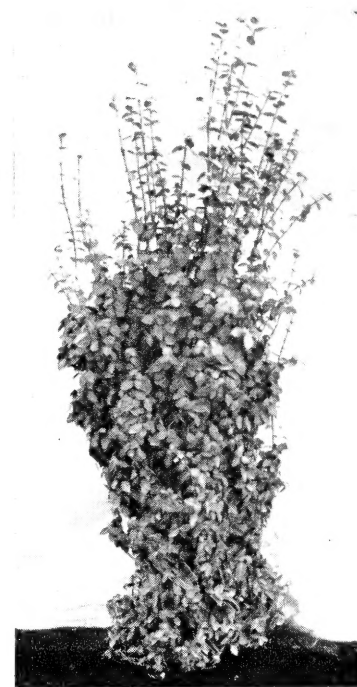

Emerald Pride

Plant Pat. No. 1073

A bushy, erect habit of growth that does not require shearing. Maximum height 4 feet.

This highly decorative variety would add greatly to the foundation planting.

15 to 18 in. spread, Balled and Burlapped, \$4.75

Emerald Charm

Plant Pat. No. 1079

A narrow pillar shaped shrub. Easily sheared into a formal accent plant. Excellent for hedges or use where space is restricted. Maximum height 4 to 5 feet.

15 to 18 in. high, Balled and Burlapped, \$4.75

These patented varieties of Euonymus are being handled under license from the patent owner.

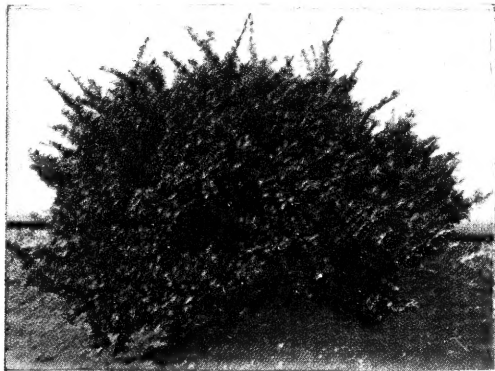

EMERALD PRIDE, as a fine, low and narrow hedge, contributes to the charm of this lovely garden

HYBRID RHODODENDRON, CATAWBIENSE GRANDIFLORUM

PINK KAEMPFERI AZALEA

JAPANESE HOLLY

**ADAMS
EVERGREEN
SHRUBS**

See pages 6 and 7
for descriptions

CHINESE AZALEA

HYBRID RHODODENDRON SEEDLINGS

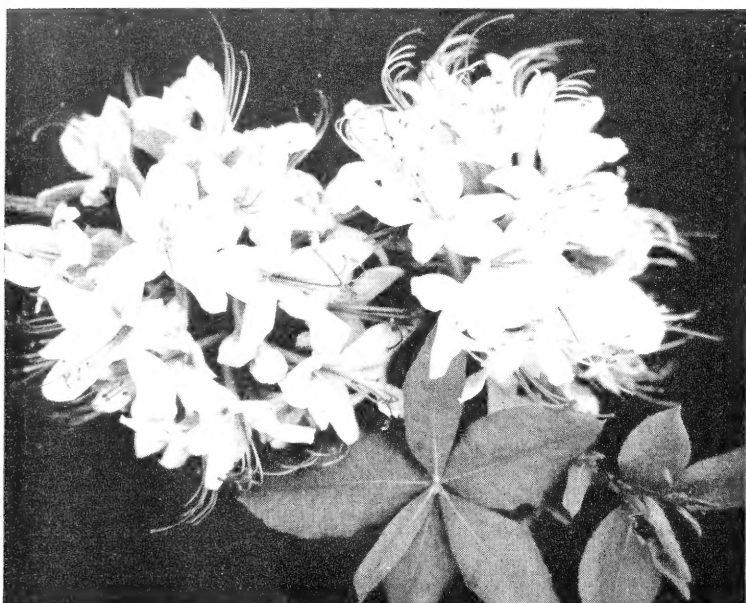

EVERGREEN SHRUBS

This group of "double-duty" plants plays a dual role in any landscape setting. In the Spring and Summer they produce great numbers of beautiful blooms and during the Winter maintain their luxuriant green foliage. They are most useful in foundation plantings where their informal habit of growth blends harmoniously with the dwarf evergreens. The flowering characteristics of many varieties add color to any well planned landscape planting.

All Evergreen Shrub Prices include balled and burlapped.

AZALEAS

For convenience we list here the deciduous Azaleas which although are not evergreen are just as beautiful and useful. They are slightly more hardy than evergreen types and blend splendidly with Laurels and Rhododendrons.

FLAME AZALEA

- Azalea arborescens** **SWEET AZALEA**
Bushy shrub. Large white blooms, sometimes daintily tinged pink, with exquisite fragrance in June and July. Likes a cool, moist, peaty soil and partial shade.
3 to 4 ft. \$7.50

- A. calendulacea** **FLAME AZALEA**
One of the gayest and most brilliant, with flowers of orange-yellow or flame-red in early June. Attractive foliage in the Autumn and always looks well planted among Rhododendrons.
12 to 18 in. \$3.50 | 2 to 2½ ft. \$6.00
18 to 24 in. 4.75 | 2½ to 3 ft. 7.50

- A. canescens** **PIEDMONT AZALEA**
Very fragrant, white or pale pink flowers in May. Bushy shrub.
15 to 18 in. \$3.25 | 2½ to 3 ft. \$6.00
18 to 24 in. 4.50 | 3 to 4 ft. 7.00
2 to 2½ ft. 5.00 | 4 to 5 ft. 8.00

- A. Kaempferi** **TORCH AZALEA**
Introduced from Japan. Its common name is indicative of its very brilliant flowers of orange-red to salmon-pink, which are produced in such profusion that the plant is completely covered in May. Prefers a little shade.
12 to 15 in. \$4.00 | 18 to 24 in. \$6.00
15 to 18 in. 5.00 | 2 to 2½ ft. 7.50

- A. Kaempferi, Hybrid Pink** **PINK JAPANESE AZALEA**
Similar to straight Kaempferi with pink flowers.
15 to 18 in. \$5.00 | 18 to 24 in. \$6.00
2 to 2½ ft. \$7.50

- A. Kaempferi, Hybrid Red** **RED JAPANESE AZALEA**
Similar to straight Kaempferi with red flowers.
15 to 18 in. \$5.00 | 18 to 24 in. \$6.00

Azaleas—Continued

- A. mollis seedlings** **MOLLIS AZALEA** (Hybrid Seedlings)
One of the hardiest Azaleas producing large flowers. These seedlings have colors from pure yellow with all shades in between to flame orange.
12 to 15 in. \$3.00

- A. mollis, Dr. M. Oosthoek**
An outstanding flame-colored Mollis Azalea.
12 to 15 in. \$5.00

- A. nudiflorum** **PINXTERBLOOM AZALEA**
Native woods Azalea, sometimes called Wild Honeysuckle. Early in Spring it produces a great profusion of fragrant rosy pink blooms. In Autumn its foliage turns attractive colors.
12 to 18 in. \$3.25 | 18 to 24 in. \$4.75

- A. Vaseyi** **PINKSHELL AZALEA**
Handsome hardy species, native of the Carolina mountains. Clusters of dainty, clear pink, orchid-like flowers in early Spring. Can be used in exposed positions, and prefers a moist, half-shaded soil.
18 to 24 in. \$4.50

- A. viscosum** **SWAMP AZALEA**
Sometimes called Swamp Honeysuckle. Its fragrant, white flowers, sometimes tinged with pink, are the last of the Azaleas to bloom. Likes a moist soil.
12 to 18 in. \$3.75 | 18 to 24 in. \$4.50

- A. yedoense** **YODOGAWA AZALEA**
Similar to Poukhanensis but with double flowers. Very hardy, dense, and low-growing form, unique because of its orchid-colored flowers.
18 to 24 in. \$7.00 | 2 to 2½ ft. \$8.00

- A. yedoense poukhanensis** **KOREAN AZALEA**
Hardy Azalea from Korea. Its large, orchid flowers are different from most Azaleas. Rather low, broad, spreading, dense shrub that blooms before the foliage appears. Autumn foliage turns red.
15 to 18 in. \$6.00 | 18 to 24 in. \$7.00

KOREAN AZALEA

EVERGREEN SHRUBS—Continued

COTONEASTER

Cotoneaster horizontalis

ROCK COTONEASTER

A low shrub with horizontal branches and small glossy green leaves. The flowers are pinkish white and the fruit bright red. Desirable for rock gardens. Field-grown stock does not transplant safely, so we offer only excellent plants from pots.

5 to 7 in. spread. Paper Pots.....	\$1.00
6 to 9 in. spread. Paper Pots.....	1.50
9 to 12 in. spread. Paper Pots.....	2.00

Daphne - GARLAND FLOWER

Daphne eneorum

GARLAND FLOWER

A dwarf, bushy plant of spreading habit, growing 8 to 12 in. high. It produces in May and June and again in September a great profusion of beautiful rose-pink, delicately perfumed flowers. Grows well in sun or in partial shade. Splendid edging plant in front of evergreens and is unequalled for the rock garden. It forms a low hedge along garden walks and around flower beds.

5 to 7 in. spread. Paper Pots.....	\$1.40
6 to 9 in. spread. Paper Pots.....	1.85
9 to 12 in. spread. Paper Pots.....	2.25

Ilex - HOLLY

Ilex crenata convexa

JAPANESE HOLLY

Resembles Dwarf Boxwood in habit and foliage. Usually grows broader than high with very glossy foliage. Compact spreading form. Very rich looking all year round.

12 to 15 in. spread.....	\$4.00	15 to 18 in. spread.....	\$6.00
18 to 24 in. spread.....	\$8.00		

Kalmia - MOUNTAIN LAUREL

Kalmia latifolia

MOUNTAIN LAUREL

A bushy shrub that blooms profusely in May and early June, producing large, showy clusters of pink flowers. Indifferent to shade or sunlight and does well in both moist and dry locations. It does, however, require an acid soil. Fine for foundation plantings, banked in front of Rhododendrons, or used in combination with Azaleas.

Collected: 15 to 18 in.....	\$3.30	18 to 24 in.....	\$4.20
Nursery Grown: 15 to 18 in.....	5.00	18 to 24 in.....	6.00
2 to 2½ ft.....	\$7.00	2½ to 3 ft.....	\$8.00

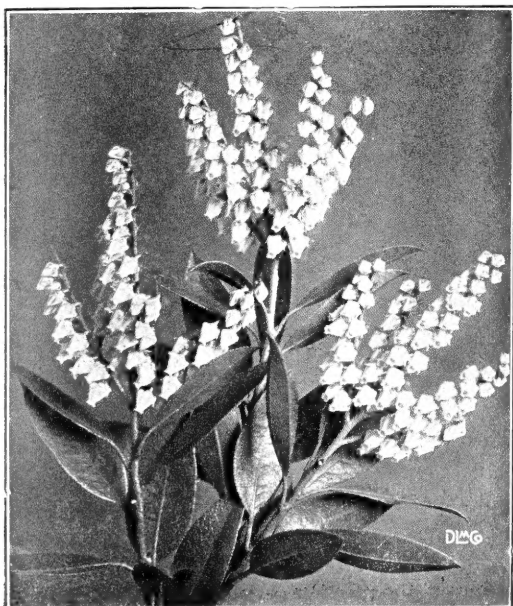

LEUCOTHOE

Leucothoe catesbaei

DROOPING LEUCOTHOE

Low growing, graceful shrub with arching, spraylike branches. Foliage glossy dark green, turning to a russet-mahogany-red in Autumn. In Spring, fragrant white flowers are borne in clusters.

12 to 15 in.....	\$3.75	15 to 18 in.....	\$4.25	18 to 24 in.....	\$4.75
------------------	--------	------------------	--------	------------------	--------

MOUNTAIN ANDROMEDA

Myrica - BAYBERRY

Myrica carolinensis

BAYBERRY

Very attractive shrub of medium height, with dark green, aromatic foliage. In Winter its compact clusters of waxy, grayish white berries are very conspicuous. Particularly valuable for planting in dry, sandy, sterile soil.

12 to 18 in.....	\$2.50	18 to 24 in.....	\$3.50
------------------	--------	------------------	--------

Pieris - ANDROMEDA

Pieris floribunda

MOUNTAIN ANDROMEDA

Low, dense-growing evergreen shrub with small, dark green leaves. The flower buds are formed in the Fall, and in early Spring produce an abundance of white flowers resembling the Lily-of-the-Valley. Grows best in a moist, well-drained, porous soil. Prefers an acid soil and partly shaded situation.

12 to 15 in. spread.....	\$5.50	15 to 18 in. spread.....	\$7.50
--------------------------	--------	--------------------------	--------

P. japonica

JAPANESE ANDROMEDA

One of the most graceful early flowering evergreens. Attractive small, glossy, light green foliage which is bunched at the end of the branches. Conspicuous white bell shape flowers in panicles in April. Plant in protected locations.

15 to 18 in.....	\$5.00	2 to 2½ ft.....	\$7.50
18 to 24 in.....	6.00	2½ to 3 ft.....	9.00

RHODODENDRON

In the plant kingdom Rhododendrons are members of the royalty. Dignified dark glossy green foliage with brilliant regal flowers. With the exception of the hybrids, they are native of the Appalachian Mountains and adapted to our New England climate. Easy to grow if given partial shade and a moist acid soil. They do best when planted in masses where the sheltering shade of each plant benefits its neighbor.

Rhododendron carolinianum

CAROLINA RHODODENDRON

The leaves are small and narrow, dark green above and covered with brownish dots beneath. Clusters of clear rose-pink flowers appear in May, before the new shoots start their growth. Its bushy growth makes it a good variety for planting in front of taller Rhododendrons.

12 to 15 in.....	\$4.50	18 to 24 in.....	\$6.75
15 to 18 in.....	5.50	2 to 2½ ft.....	8.00

R. catawbiense

CATAWBA RHODODENDRON

One of the most beautiful of the Rhododendrons. It is a prolific bloomer with flowers produced in very large, round trusses and of various shades of pink. The foliage is the most handsome of any of the Rhododendrons. Because of extreme hardiness it is a fine variety for groups and mass plantings.

12 to 15 in.....	\$4.75	18 to 24 in.....	\$6.50
15 to 18 in.....	5.50	2½ to 3 ft.....	7.50

R. catawbiense grandiflorum

HYBRID RHODODENDRON

One of the most satisfactory Rhododendrons. Will grow in full sun. Deep green, glossy foliage with large flower clusters of various shades of pink.

18 to 24 in.....	\$8.50	2 to 2½ ft.....	\$9.50
------------------	--------	-----------------	--------

15 to 18 in.....	6.25	2 to 2½ ft.....	9.00

R. maximum

ROSEBAY RHODODENDRON

The foliage is very thick, smooth, and large. Growing taller than most varieties, it is used extensively as a background plant. The flowers, which vary in color from pure white to delicate shades of pink, appear in late June and July. Like all other Rhododendrons, plants of this variety should be placed close together so that the foliage can shade the soil, as the roots are close to the surface.

12 to 15 in.....	\$3.50	18 to 24 in.....	\$5.25
15 to 18 in.....	4.00	2 to 2½ ft.....	6.50

Evergreens for Permanent Beauty

Evergreens are one of the most useful classes of plants because of their year-round attractiveness and permanent beauty. They are immediately ornamental after planting. In Summer, Evergreens give a refreshing coolness to the scene and in Winter their cheerful colors break the otherwise dull Winter landscape.

They may be divided into two general classes: Those of a truly dwarf habit of growth, which makes them desirable for foundation plantings, and those that attain considerable size and height, which makes them suitable for backgrounds, windbreaks, and specimens. With the exception of Pines, Firs and Spruces, Evergreens are greatly benefited by an annual shearing during July.

A good selection of Evergreens is a permanent investment, increasing in value yearly. To those who are unfamiliar with their characteristics we suggest that you permit us to help you select the right plant for its proper place.

All Evergreen Prices include balled and burlapped.

Juniperus - JUNIPER

The Junipers vary greatly in habit from tall, pyramidal trees to low, prostrate or trailing shrubs. They are resistant to cold and drought and thrive best in a sandy loam, moderately moist, but grow well in rather dry, rocky and gravelly ground. They prefer sunny, open situations. Some of the dwarf varieties are excellent for foundation plantings.

Juniperus chinensis pfitzeriana PFITZER'S JUNIPER
A remarkable plant that deserves its popularity. Assumes a spreading form with horizontal branches covered with dense, feathery, gray-green foliage. It will thrive under very unfavorable conditions, resisting drought, gas, and smoke. Grows well in full sun as well as shade. Its informal habit blends well with the pyramidal evergreens, and it is a valuable foundation variety.

15 to 18 in. spread.....\$4.85 | 18 to 24 in. spread.....\$6.00
2 to 2½ ft.....\$7.50

J. chinensis pfitzeriana nana DWARF PFITZER JUNIPER
This is also similar to the Pfitzeriana type but much more dwarf and compact.

12 to 15 in. spread.....\$3.90

J. excelsa stricta SPINY GREEK JUNIPER
Very neat, compact, upright plant of dwarf proportions. Good for foundation plantings, window boxes, and formal work. Blue-green foliage.

15 to 18 in.\$3.50 | 18 to 24 in.\$4.00

J. glauca Hetzi HETZ BLUE JUNIPER
Its spreading habit of growth reminds one of the Pfitzeriana except its foliage is a beautiful shade of steel-blue and it grows a little more upright.

15 to 18 in. spread.....\$4.50 | 2 to 2½ ft. spread.....\$6.25
18 to 24 in. spread..... 5.50 | 2½ to 3 ft. spread..... 7.00
3 to 3½ ft. spread.....\$8.00

J. horizontalis CREEPING JUNIPER
A fine creeping form, making a velvety mat of gray-green foliage. In the Autumn it assumes a delicate lavender hue.

12 to 15 in. spread, (available Fall).....\$3.00
15 to 18 in. spread, (available Fall)..... 4.00

J. horizontalis glauca BLUE CREEPING JUNIPER
A low, prostrate Juniper of dense, neat habit, with pleasing steel-blue foliage which turns purple in Winter.

15 to 18 in. spread.....\$4.00

J. horizontalis plumosa ANDORRA JUNIPER
Dwarf and low-spreading with plummy foliage from center. Green in Spring, gray-green in Summer, heather tones in Winter.

15 to 18 in. spread.....\$3.75 | 18 to 24 in. spread.....\$4.50
2 to 2½ ft. spread.....\$5.50

J. procumbens glauca BLUE JAPGARDEN JUNIPER
Spreading, low, soft and feathery blue-green foliage.

12 to 15 in. spread.....\$2.50 | 15 to 18 in. spread.....\$3.00
18 to 24 in. spread.....\$4.00

J. sabina SAVIN JUNIPER
Dwarf, bushy plant having many branches growing in a semi-erect manner from the base 3 to 4 ft. high. Looks well on rocky banks, sandy slopes and in house foundation plantings.

12 to 15 in. spread.....\$3.00 | 18 to 24 in. spread.....\$4.00
15 to 18 in. spread..... 3.50 | 2 to 2½ ft. spread..... 5.00

PFITZER'S JUNIPER

Picea - SPRUCE

The name Picea comes from the Latin word pix meaning "pitch." Among the members of this family are found handsome and enduring trees for landscaping as well as producing some of the most valuable timber in the world. They are native to the northern hemisphere and like a moist but well-drained soil. Do not thrive in dry, sandy regions as well as pines.

Picea abies excelsa NORWAY SPRUCE
One of the most popular, quick-growing evergreens adapted for many purposes. Especially valuable for windbreaks, hedges, and reforestation. Makes a tall, pyramidal-shaped specimen often used as a living Christmas tree.

18 to 24 in.\$3.00 | 3 to 4 ft.....\$5.00
2 to 3 ft..... 4.00 | 4 to 5 ft..... 6.50

P. abies nidiformis NEST-SHAPED SPRUCE
A dense, dwarf, slow growing variety. Nestlike mass of branchlets. Interesting subject for the rock garden.

6 to 9 in. spread (available Fall)\$1.50

P. glauca WHITE SPRUCE
A tall, symmetrical tree seldom exceeding 60 ft. in height. Perfectly hardy, with dense bluish green foliage.

18 to 24 in.\$3.00 | 2 to 3 ft.....\$4.00
3 to 4 ft.....\$5.00

P. pungens COLORADO SPRUCE
Native of the Colorado mountains. Hardy, shapely, tall tree suitable as a lawn specimen. Foliage varies from bright blue to gray-green.

18 to 24 in.\$3.50 | 2½ to 3 ft.....\$6.00
2 to 2½ ft..... 4.50 | 3 to 4 ft..... 7.50

P. pungens glauca COLORADO BLUE SPRUCE
This is a selected form of the Colorado Spruce with dense steel-blue foliage.

18 to 24 in.\$6.00 | 2 to 2½ ft.....\$7.50
2½ to 3 ft.....\$10.00

HEMLOCK (See page 11)

WHITE PINE (See page 10)

Pinus - PINE

In economic importance the Pine stands above all evergreen trees. It grows in a wide variety of soils and under a broad range of climatic conditions. It will not, however, endure shade, smoke, or an excess amount of dust. It prefers the open country, hillsides, and sandy slopes. Will withstand considerable drought and flourish on poor soil. Except for a few dwarf varieties, they are adapted for making groves, forests, windbreaks, backgrounds, and specimens. They are very useful for reclaiming waste land and will thrive anywhere if the soil is well drained.

Pinus mugo mughus MUGHO SWISS PINE

This is a low, flat, spreading evergreen growing horizontally to form a dense, compact mat. Rather coarse in texture but very useful for foundation plantings or rockeries. Endures semi-shade.

12 to 15 in. spread.....\$3.00

P. nigra AUSTRIAN PINE

Sometimes called the Black Pine. A tall, broad-headed Pine, rather fast-growing, with dark green foliage. Shows a marked resistance to the trying conditions of city planting. Requires plenty of room and is good for background planting.

2 to 3 ft.....\$6.00 | 3 to 4 ft.....\$7.00

P. resinosa RED PINE

Native of the Far North. Forms a tall, broad pyramid with lustrous dark green needles. Valuable as an ornamental or timber tree.

2 to 3 ft.....\$6.00 | 3 to 4 ft.....\$7.00

P. strobus WHITE PINE

King of all the Pines. Very valuable ornamental hardy Pine for rapid growth, symmetrical when young, picturesque in old age. A fine variety for reforestation work.

2 to 3 ft.....\$5.25 | 4 to 5 ft., (available Fall).....\$8.00

3 to 4 ft.....6.50 | Larger specimens available.

Pseudotsuga - FIR**Pseudotsuga taxifolia** DOUGLAS FIR

It would be difficult to over-rate the beauty or usefulness of this variety. A fast growing forest tree that endures drought and cold. Its soft green foliage and perfect pyramidal symmetry make it a most desirable ornamental specimen.

18 to 24 in.....\$4.00 | 2 to 3 ft.....\$5.00

3 to 4 ft., (available Fall).....\$6.50

Taxus - YEW

No doubt, one of the most popular evergreens in America. Its chief characteristics are its slow growth, luxuriant dark green foliage the year round, and scarlet berry-like fruits. The various garden varieties provide many different forms and shapes. They are absolutely hardy, easily trimmed into any desired shape, and well suited for hedges. The Yews thrive best in a moderately moist, sandy loam and endure shade very well. An excellent plant for foundations.

Taxus canadensis stricta DWARF CANADIAN YEW

Will make a very satisfactory dwarf evergreen hedge. Foliage dark green, of fine texture. Shears perfectly.

9 to 12 in. spread.....\$2.00 | 15 to 18 in. spread.....\$4.00

12 to 15 in. spread.....3.00 | 18 to 24 in. spread.....5.00

T. cuspidata SPREADING JAPANESE YEW

A native of Japan, perfectly adapted to our New England conditions. Rich dark green foliage, ornamented in the Fall with numerous crimson fruits. Very popular as a hedge or foundation plant. Informal and spreading in shape, but can be easily sheared to keep within bounds. Grows well in either shade or full sun.

15 to 18 in. spread.....\$5.25 | 18 to 24 in. spread.....\$6.00

T. cuspidata capitata UPRIGHT JAPANESE YEW

Formal, upright tree form, possessing all the pleasing characteristics of the preceding variety. It will add dignity and character to the foundation planting. A superb specimen or hedge.

18 to 24 in.....\$6.75 | 3 to 3½ ft.....\$13.50

2 to 2½ ft.....8.00 | 3½ to 4 ft.....18.00

2½ to 3 ft.....9.75 | 4½ to 5 ft.....20.00

5 to 5½ ft.....\$22.00

Larger specimens available.

T. cuspidata columnaris COLUMNAR YEW

Extremely narrow and upright. Makes a fine hedge, especially where space is limited. A fine variety for creating formal effects. Comparatively new variety which has been thoroughly tested the past few Winters for its hardiness.

18 to 24 in.....\$5.00 | 2 to 2½ ft.....\$6.00

2½ to 3 ft., (available Fall).....\$7.50

T. cuspidata densiformis DENSE YEW

This is a distinctive form of cuspidata and as its name implies it has a very compact dense habit of growth. It grows a little more upright than cuspidata and has very attractive dark green foliage.

15 to 18 in. spread.....\$5.60 | 18 to 24 in. spread.....\$6.50

T. cuspidata intermedia INTERMEDIATE YEW

Semi-dwarf, spreading, irregular-shaped plant with beautiful dark green foliage. Useful among broad-leaf evergreens or foundation groupings. A compact, relatively slow-growing variety which will thrive in sun or shade.

12 to 15 in. spread.....\$4.75 | 15 to 18 in. spread.....\$5.25

T. cuspidata intermedia capitata UPRIGHT INTERMEDIATE YEW

Very compact, pyramidal form with broad base. An outstanding variety which we are convinced after several years' trial is the best of the pyramidal Yews.

18 to 24 in.....\$7.50 | 2 to 2½ ft.....\$10.00

T. cuspidata nana DWARF JAPANESE YEW

Slow-growing, of spreading, irregular shape. Very dark green foliage which holds its color through the entire year.

12 to 15 in. spread.....\$5.00

T. cuspidata nana erecta UPRIGHT DWARF YEW

A slow growing, more erect form of the Dwarf Yew having the same dark green foliage.

15 to 18 in.....\$5.50 | 18 to 24 in.....\$6.50

2 to 2½ ft.....\$8.00

T. cuspidata sieboldi SIEBOLD YEW

Resembles cuspidata in many respects. Grows a little bushier and has smaller foliage giving it a very refined appearance.

15 to 18 in. spread, (available Fall).....\$5.25

18 to 24 in. spread, (available Fall).....6.00

T. media browni BROWN'S YEW

More upright than cuspidata, developing more a vase shape. The foliage is heavy and dark green. Carries a high rating by the experts.

15 to 18 in. spread.....\$5.60

T. media Hatfieldi HATFIELD'S YEW

A compact, conical plant of upright form. Absolutely hardy. Dark green foliage. The Arnold Arboretum considers this the best of the Taxus hybrids.

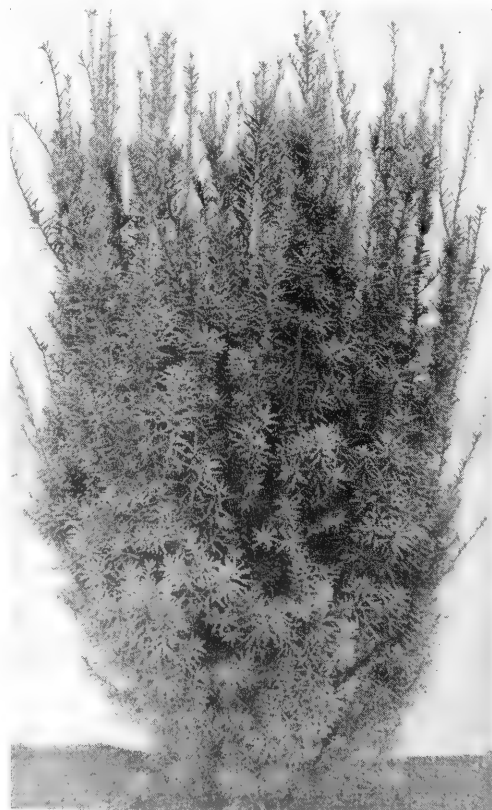

18 to 24 in.....\$7.20 | 2 to 2½ ft.....\$8.75

T. media Hicksi HICK'S YEW

A narrow, upright Taxus with vertical branches covered with deep, rich green foliage.

18 to 24 in.....\$6.75 | 2 to 2½ ft.....\$8.00

2½ to 3 ft.....\$9.75

HICK'S YEW

Thuja - ARBORVITAE

The Thujas are usually trees of narrow pyramidal habit; however, some garden forms are low, bushy, and globular. They are very valuable for the evergreen border or foundation planting. Thujas are well adapted for hedges and windbreaks. They bear pruning well, and soon form a dense hedge. They thrive best in a somewhat moist, loamy soil and are easily transplanted. Do not plant in shade.

Thuja occidentalis compacta**PARSONS ARBORVITAE**

A dwarf, dense, egg-shaped variety. Bright green foliage. When annually sheared it makes a beautiful, bushy foundation plant.

18 to 24 in.	\$3.40	2½ to 3 ft.	\$6.00	3½ to 4 ft.	\$8.00
2 to 2½ ft.	4.50	3 to 3½ ft.	7.00	4 to 4½ ft.	9.00

T. occidentalis globosa**GLOBE ARBORVITAE**

A compact, globe-shaped, dwarf form. A fine variety for foundation planting. Planted in tubs they make good formal effects.

12 to 15 in. spread.	\$2.25	15 to 18 in. spread.	\$3.00
---------------------------	--------	---------------------------	--------

T. occidentalis nigra**DARK AMERICAN ARBORVITAE**

A superior type of native Arborvitae introduced by us into New England several years ago. Very handy and of a deeper green color which it holds during the Winter months. More compact than its parent and seldom produces more than a single leader. Has already displaced the common American variety as it becomes better known.

2 to 3 ft.	\$3.40	4 to 5 ft.	\$6.50
3 to 4 ft.	5.00	5 to 6 ft. (available Fall).	8.00

T. occidentalis pyramidalis**PYRAMIDAL ARBORVITAE**

This is one of the best. Very densely branched, of a distinct columnar growth and maintains its rich dark green color throughout the Winter.

Same sizes and prices as Dark American Arborvitae

T. occidentalis Rosenthalii**ROSENTHAL ARBORVITAE**

Makes a compact, broad, symmetrical pyramid with lustrous dark green foliage which retains its color the entire Winter.

2 to 3 ft.	\$4.00	3 to 4 ft.	\$5.50	4 to 5 ft.	\$7.50
-----------------	--------	-----------------	--------	-----------------	--------

T. occidentalis umbraculifera**UMBRELLA ARBORVITAE**

Low mushroom-shaped, slow growing variety, desirable for bedding, low hedges, foundation planting.

18 to 24 in. spread.	\$3.00	2½ to 3 ft. height.	\$6.50
2 to 2½ ft. height.	4.00	3 to 3½ ft. height.	7.50

T. occidentalis Vervaeana**VERVAENE ARBORVITAE**

Very hardy, broad, bushy. Foliage varies from a light gray-green to a yellow-green.

2 to 3 ft.	\$3.40	4 to 5 ft.	\$6.50
3 to 4 ft.	5.00	5 to 6 ft.	8.00
6 to 7 ft.			\$9.50

T. occidentalis Wareana**SIBERIAN ARBORVITAE**

Lower, denser and slower growing. Foliage dark green. Makes a fine hedge or specimen.

18 to 24 in.	\$2.75	2½ to 3 ft.	\$4.50
2 to 2½ ft.	3.75	3 to 4 ft.	5.50

SPRAYING SERVICE

HEALTHY EVERGREENS are assured when sprayed at the proper time. During late Winter, dormant spraying may be safely done up to March 15th.

We are not equipped to spray fruit trees. In June and July Evergreen spraying may again be necessary to combat Summer infestations. Our men and equipment are available at these times to render service. Please phone for rates.

**DARK AMERICAN ARBORVITAE****Tsuga - HEMLOCK****Tsuga canadensis****CANADIAN HEMLOCK**

This magnificent evergreen is considered by many the most graceful of all. From its broad base it tapers to a slender, graceful terminal of deep rich green. Not particular as to soil but prefers a certain amount of moisture. Plants may be kept small for years by shearing, which makes it a most desirable hedge. One of the few evergreens that will grow satisfactorily in shade.

2 to 2½ ft.	\$5.50	3 to 4 ft.	\$8.00
2½ to 3 ft.	6.50	4 to 5 ft.	10.00
		5 to 6 ft.	\$12.50

T. canadensis pomfret**POMFRET HEMLOCK**

An erect, dense, compact and slow grower. Rich dark green foliage. Requires little, if any, trimming because of its habit. Very hardy and ideal for hedge or foundation plantings.

18 to 24 in.	\$6.00	2 to 2½ ft.	\$7.50
-------------------	--------	------------------	--------

**DARK AMERICAN ARBORVITAE**

SHADE TREES

PLANT AMERICA with shade trees. It is hard to picture this country without trees, without the birds which seek their shelter, and without lumber to build our homes. Truly New England has a heritage which our forefathers left us.

Trees do not happen over night. You must plan ahead to enjoy their shade on a hot Summer day.

Mark Twain once said, "Everybody talks about the weather, but no one does anything about it." By planting trees you can *Control Your Private Climate*, increase your comfort, and the valuation of your property.

Acer - MAPLE

The Maples are among our most ornamental and desirable trees for specimens and street planting. Here in New England they are also valuable for producing timber and sugar. Practically all are relatively fast-growing and not particular as to soil requirements. They are hardy, healthy, and produce cool shade and brilliant Fall colors.

Acer palmatum atropurpureum

BLOOD-LEAF JAPANESE MAPLE
A small, dense tree or large, compact shrub used principally for its ornamental blood-red foliage in Spring and early Summer. Should be planted in a protected location.

15 to 18 in.\$6.50 | 18 to 24 in.\$10.00

A. platanoides

NORWAY MAPLE

Our most popular street tree. A clean, dense tree that seems to like city conditions. Its broad, rich green foliage is retained until late Autumn, when it turns yellow.

8 to 10 ft.\$8.00
10 to 12 ft.10.00
1½ to 1¾ in. caliper.13.00
1¾ to 2 in. caliper, (available Fall).16.00
2 to 2½ in. caliper.20.00
2½ to 3 in. caliper.25.00

A. platanoides columnare

COLUMN NORWAY MAPLE

Similar to above only branches more upright forming a narrow columnar-shaped head.

1½ to 1¾ in. caliper.\$15.00 | 1¾ to 2 in. caliper.\$18.00

A. platanoides Schwedleri

SCHWEDLER MAPLE

Similar to the Norway Maple except that in the Spring the foliage assumes brilliant shades of scarlet and red. During the Summer the leaves turn a deep ruddy green.

10 to 12 ft.\$11.00 | 1½ to 1¾ in. caliper.\$14.00
1¾ to 2 in. caliper, (available Fall).17.00

A. platanoides Schwedleri nigra

CRIMSON KING MAPLE

Patent No. 735. This is a new beautiful variety originating in Europe which has all the desirable features of Schwedleri Maple and in addition the foliage remains red all Summer.

8 to 10 ft.\$15.00 | 10 to 12 ft.\$17.50

A. rubrum

RED MAPLE

Attractive at all seasons. Fiery red blooms appear early in the Spring, followed by clean green foliage. In the Fall it is probably the most brilliantly colored of all the Maples, turning orange and bright scarlet. Grows best in a rich, moist soil.

8 to 10 ft.\$7.50 | 1¾ to 2 in. caliper.\$14.00
10 to 12 ft.8.50 | 2 to 2½ in. caliper.18.00
1½ to 1¾ in. caliper.10.50 | 2½ to 3 in. caliper.22.00
3 to 3½ in. caliper.\$25.00

Acer - MAPLE—Continued

A. saccharum

ROCK OR SUGAR MAPLE

Commercially, king of the New England forests. A tall, majestic tree shaped like an egg on end. Fine clean foliage, particularly brilliant in the Fall. Does well in almost any location and is one of our finest street and lawn trees. Famous for its sugar products.

10 to 12 ft.\$10.00
1½ to 1¾ in. caliper.13.00
1¾ to 2 in. caliper.16.00
2 to 2½ in. caliper, (available Fall).20.00

A. saccharinum

SILVER MAPLE

A rapid-growing Maple thriving in any soil but doing best in rich, moist ground. Leaves are light green, silvery beneath, changing to yellow in the Autumn.

8 to 10 ft.\$4.00 | 1¾ to 2 in. caliper.\$9.00
10 to 12 ft.5.00 | 2 to 2½ in. caliper.12.00
1½ to 1¾ in. caliper.7.50 | 2½ to 3 in. caliper.15.00

A. saccharinum Wieri

WIER'S CUT-LEAF MAPLE

Graceful, rapid-growing variety similar to the preceding but with drooping branches and finely divided, lacy foliage.

8 to 10 ft.\$5.00 | 1¾ to 2 in. caliper.\$10.00
10 to 12 ft.6.00 | 2 to 2½ in. caliper.13.00
1½ to 1¾ in. caliper.7.50 | 2½ to 3 in. caliper.17.00

Betula - BIRCHES

Very ornamental because of their slender pendulous branches and white bark. Prefer a moist sandy or loamy soil. However, the European Birch does well in dry and relatively poor soil. Extremely hardy as the variety papyrifera grows as far north as Alaska. Their graceful habit and picturesque trunks make them conspicuous features of the landscape.

Betula alba

EUROPEAN WHITE BIRCH

A rapid-growing tree with silvery white bark and spray-like branches. Beautiful lawn tree, effective when planted among evergreens. Prefers a moist soil.

5 to 6 ft.\$4.50 | 8 to 10 ft.\$7.00
6 to 8 ft.5.25 | 10 to 12 ft.8.50

B. alba, clumps

EUROPEAN WHITE BIRCH CLUMPS

Same as European White Birch with silvery white bark, but grown in clumps of three or more stems.

5 to 6 ft.\$6.00 | 8 to 10 ft.\$9.00
6 to 8 ft.7.50 | 10 to 12 ft.12.00

SILVER MAPLE

NORWAY MAPLE

PAPER BIRCH (Page 13)

Betula - BIRCH—Continued

- B. alba laciniata** CUT-LEAF WEEPING BIRCH
One of the most popular of all the weeping trees. It is tall and slender with graceful, drooping branches. The foliage is delicately cut and the bark is silvery white. An attractive specimen tree.

SHADE TREES—*Continued***Quercus - OAK****Quercus borealis maxima**

RED OAK

Beautiful Oak of rapid growth, growing into a large, majestic tree with a broad, round head. A superb street or lawn specimen with its smooth bark and dark red autumnal color. Easily transplanted and prefers a dry location.

8 to 10 ft.\$7.50 | 1 1/4 to 1 1/2 in. caliper.....\$10.00
1 1/2 to 1 3/4 in. caliper.....\$13.50

Q. palustris

PIN OAK

Rapid growing, symmetrical tree—perhaps the best Oak for lawn and avenue planting. Easily transplanted and endures city conditions. Its deeply cut foliage turns rich crimson in Fall. Prefers a moist location.

8 to 10 ft.\$7.50 | 10 to 12 ft., (available Fall).....\$9.00

Salix - WILLOW**Salix babylonica**

BABYLON WEeping WILLOW

Graceful tree with slender, whiplike, drooping branches, which give it a weeping form. A beautiful specimen, most appropriate for waterside planting.

6 to 8 ft.\$3.00 | 8 to 10 ft.\$4.50

S. Niobe

GOLDEN WEeping WILLOW

Slender leaves, green above, silvery beneath. The twigs and bark are deep golden yellow, making them attractive the year around.

6 to 8 ft.\$3.50

PIN OAK

Larix - LARCH**Larix europaea**

EUROPEAN LARCH

Pyramidal in shape but with age becomes irregular. Branches spread horizontally from the straight trunk. Prefers light sandy soil. Makes a rapid growth. Bright green foliage turning coppery in the Fall.

4 to 5 ft., balled and burlapped.....\$7.50
8 to 10 ft., balled and burlapped.....15.00

Morus - MULBERRY**Morus alba tatarica**

RUSSIAN MULBERRY

This variety forms a large, spreading tree with showy flowers. The fruit is attractive to the birds.

6 to 8 ft.\$3.00 | 1 1/2 to 2 in. caliper.....\$6.00
2 to 2 1/2 in. caliper.....\$7.50

Platanus - PLANETREE**Platanus occidentalis**

BUTTONWOOD

Tallest of New England trees. Branches creamy-white color. Main trunk dark brown. Grows well under city conditions. Prefers a moist fertile soil but grows in dry soil.

6 to 8 ft.\$4.50 | 1 1/2 to 1 3/4 in. caliper.....\$9.00
8 to 10 ft.6.00 | 2 to 2 1/2 in. caliper..... 15.00

Populus - POPLAR**Populus canadensis eugenei**

CAROLINA POPLAR

Exceedingly rapid growing tree of large proportions. Gives shade very quickly and grows well under adverse conditions, also near salt water.

8 to 10 ft.\$2.50

P. nigra italica

LOMBARDY POPLAR

Wherever it is planted, its familiar spire-like shape stands out like a sentinel. Fast growing and of easy culture, it is used mostly for screen plantings and formal effects.

6 to 8 ft.\$1.50 | 8 to 10 ft. \$2.25
10 to 12 ft.\$3.25

Tilia - LINDEN**Tilia cordata**

SMALL LEAF LINDEN

A large tree particularly adapted for street, avenue and specimen planting. Very dense head.

10 to 12 ft.\$9.00
1 1/2 to 1 3/4 in. cal. .12.00
1 3/4 to 2 in. cal. .15.00

Ulmus - ELM**Ulmus parvifolia**

CHINESE ELM

A remarkably rapid growing tree, suitable for dry or moist locations. The foliage is much smaller than that of the American, and quite dense. It is perfectly hardy in New England.

1 3/4 to 2 in. cal. .12.00
2 to 2 1/2 in. cal. . 15.00

Plant this Fall for bloom next Spring

FLOWERING TREES

Glorious Blooms. Interesting Foliage—Well Shaped Trees
Attractive Fruits (The birds like them, too). Brilliant Fall Coloring

You will find that Flowering Trees are a solid investment; increasing in beauty and value (which, of course, enhances the value of your property).

All the varieties listed below are hardy and chosen because of the complete satisfaction they have given—no matter whether planted as lawn specimens, in the border, among evergreens or “for shade.”

Flowering Trees marked B and B are Balled and Burlapped, all others are bare root.

Aesculus - HORSE CHESTNUT

Aesculus hippocastanum WHITE HORSE CHESTNUT
Tall and symmetrical, with dense foliage, making it a very desirable shade tree. In Spring it bears a profusion of white flowers.
6 to 8 ft.\$6.00

CATALPA

Catalpa speciosa WESTERN CATALPA
A very rapid, tall-growing tree, with large, heart-shaped leaves. Produces fragrant blossoms of purple and white in a pyramidal cluster 1 ft. long.
6 to 8 ft.\$2.00 | 8 to 10 ft.\$3.00

Cercis - REDBUD

Cercis canadensis REDBUD OR JUDAS TREE
A small, graceful tree. Grows native in our New England woods. In early Spring the branches are covered with small, purplish pink pea-blossoms before the heart-shaped leaves appear.
2 to 3 ft.\$1.50

Chionanthus - FRINGE TREE

Chionanthus virginica WHITE FRINGE
Graceful large shrub or small tree usually with several trunks. Large, rich green foliage followed in May and June by hanging clusters of fragrant white fringing flowers.
18 to 24 in.\$1.50 | 2 to 3 ft.\$2.00
3 to 4 ft.\$2.50

Prices in this catalogue cancel all previous lists and may be changed without notice.

PAUL'S SCARLET HAWTHORN

Cornus - DOGWOOD

Cornus florida WHITE-FLOWERING DOGWOOD
Possesses the maximum of attractiveness throughout the entire year. A small tree, with spreading branches. In early Spring before the leaves come, this beautiful tree produces large, showy white flowers. In September appear brilliant red berries and the shiny dark green leaves turn to vivid reds and scarlet. It thrives in almost any soil and stands shade or full sun equally well.

3 to 4 ft., B and B.\$5.00 | 5 to 6 ft., B and B.\$8.00
4 to 5 ft., B and B. 6.00 | 6 to 8 ft., B and B.12.00

C. florida rubra PINK-FLOWERING DOGWOOD
Similar in all respects to *Cornus florida* except that the flowers are a beautiful shade of pink. Makes a fine specimen and looks well when interplanted with the white variety.
2 to 3 ft., B and B.\$5.00 | 4 to 5 ft., B and B.\$12.00
3 to 4 ft., B and B. 8.00 | 5 to 6 ft., B and B. 15.00
6 to 8 ft., B and B.\$20.00

Crataegus - HAWTHORN

Crataegus crus galli COCKSPUR HAWTHORN
A small thorny tree. Sometimes used as a hedge. Late white flowers, glossy foliage turning orange and scarlet in Autumn and persistent red fruits.

3 to 4 ft.\$4.50 | 5 to 6 ft., B and B.\$7.50
4 to 5 ft. 6.00 | 6 to 8 ft., B and B. 9.00

C. oxyacantha plena DOUBLE WHITE HAWTHORN
A small tree with double, white, sweet-scented flowers in May.
4 to 5 ft.\$5.00 | 7 to 8 ft.\$9.00

C. oxyacantha rosea plena DOUBLE PINK HAWTHORN
Same as the preceding variety but with double pink flowers
6 to 7 ft.\$7.50

C. oxyacantha pauli PAUL'S SCARLET HAWTHORN
Very double, deep crimson flowers with a scarlet glow. One of the choicest ornamental trees in existence.
6 to 7 ft.\$6.00

C. phaenopyrum WASHINGTON HAWTHORN
Small tree with exceptionally fine Fall coloring. White flowers followed by bright red berries, lasting well into the Winter.
4 to 5 ft.\$6.00 | 5 to 6 ft., B and B.\$8.50
6 to 8 ft., B and B.\$10.00

Gleditsia - LOCUST

Gleditsia triacanthos HONEY LOCUST
The common Honey Locust with long sharp thorns and feathery foliage. A large tree forming a broad, graceful loose head. Will grow on almost any soil, making an impenetrable hedge when planted close together.

8 to 10 ft.\$6.00 | 10 to 12 ft.\$7.50
1½ to 1¾ in. caliper.\$9.00

G. triacanthos inermis THORNLESS HONEY LOCUST
The same characteristics as above variety except that it does not have the sharp thorns.
8 to 10 ft.\$7.00 | 10 to 12 ft.\$8.50

Halesia - SILVERBELL

Halesia tetraptera SILVERBELL
Attractive small tree with bell-shaped, drooping, white flowers. O irregular habit. Leaves turn yellow in the Fall.
2 to 3 ft., Tree Form.\$1.50 | 3 to 4 ft., Tree Form.\$2.00
4 to 5 ft., Tree Form.\$2.75

Hydrangea - TREE FORM

Hydrangea paniculata grandiflora PEE GEE HYDRANGEA
Large heads of white flowers appearing in late Summer and turning bright pink in the Fall. Foliage is large and clean.
4 to 5 ft.\$2.50 | 5 to 6 ft.\$3.75

RED DOGWOOD

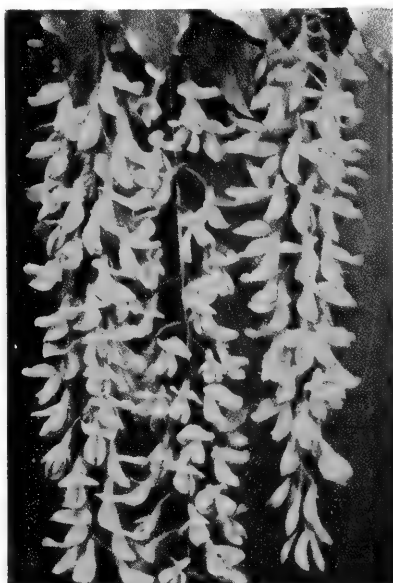

Adams Flowering Trees

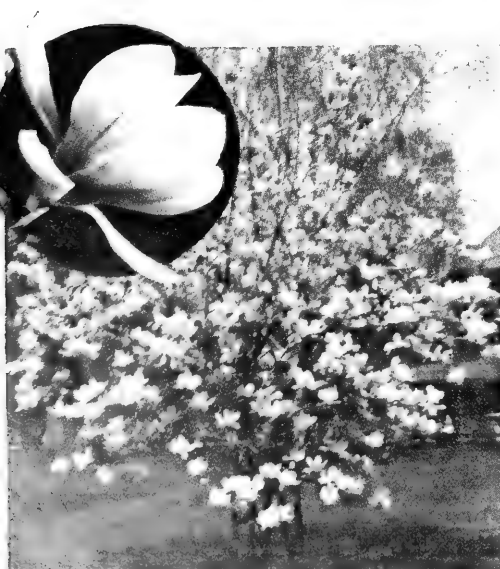

FLOWERING CHERRY

MOUNTAIN ASH FRUIT

GOLDEN CHAIN

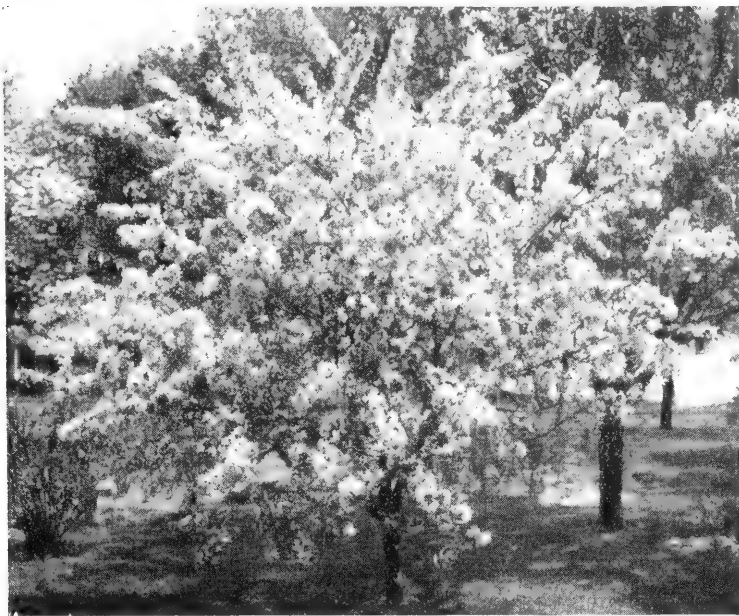

SAUCER MAGNOLIA

See pages 15,
17 and 18 for
descriptions

ALMEY (FLOWERING) CRAB

ARNOLD (FLOWERING) CRAB

Koelreuteria - VARNISH TREE

Koelreuteria paniculata

VARNISH TREE

Recommended for its handsome compound foliage and immense panicles of yellow flowers in July. An unusual, decorative tree adapted to city conditions and enduring dry locations.

5 to 6 ft.\$6.00 | 6 to 8 ft. Available Fall. \$7.50

LABURNUM

Laburnum vulgaris

GOLDEN CHAIN LABURNUM

Attractive, small tree with yellow pea-shaped flowers in long racemes. Like Wistaria blossoms. Leaves are three-parted, grayish-green and are silky beneath when young. Very showy. Will bloom well in partial shade.

3 to 4 ft.\$2.50 | 4 to 5 ft.\$3.50

L. watereri (Vossi)

WATERER LABURNUM

This is a selected strain of the above with larger and showier flower clusters.

6 to 8 ft., Branched.\$7.50 | 8 to 10 ft.\$9.00

MAGNOLIA

Magnolia soulangeana

SAUCER MAGNOLIA

One of the showiest and most picturesque trees of moderate size. Large, lustrous foliage and in early Spring produces large, slightly fragrant, cup-shaped, pinkish flowers. A most spectacular specimen.

2 to 3 ft., B and B.\$1.75 | 4 to 5 ft., B and B.\$12.00
3 to 4 ft., B and B. 9.00 | 5 to 6 ft., B and B. 15.00

M. soulangeana nigra

DARK SAUCER MAGNOLIA

Large flowers, dark purple outside. Pale purple inside. Otherwise, same as Saucer Magnolia.

2½ to 3 ft., B and B.\$8.00

Malus - FLOWERING CRAB

M. ioensis plena

BECHTEL CRAB

Large double pink, roseline flowers. Round buds of pink and its great profusion of bloom has made this small, bushy tree a favorite. No fruits. Fragrant, late blooming.

2 to 3 ft.\$1.75 | 5 to 6 ft.\$4.50
3 to 4 ft. 2.50 | 6 to 7 ft. 6.00
4 to 5 ft. 3.50 | 7 to 8 ft. 7.50

M. Sargentii

SARGENT CRAB

A low, hardy sort. Flowers white. Fruit scarlet hanging until Spring. Dwarf variety of spreading form.

2 to 3 ft.\$2.00 | 3 to 4 ft.\$3.00

Malus - FLOWERING CRAB

Flowering Crab is a most unfortunate name, as it comprises a beautiful assortment of hardy, picturesque, rugged, small trees unsurpassed for their ornamental value. In addition to the flowers, which are various shades of pink and completely cover the trees in Spring, many varieties produce bright-colored, miniature Apples which last well into the Winter and insure the birds a bountiful Thanksgiving dinner. They lend themselves readily to mass and screen plantings, groups or single specimens.

	2 to 3 ft.	3 to 4 ft.	4 to 5 ft.	5 to 6 ft.
Malus Adamsi ADAMS CRAB Flower buds red opening to pink in clusters along the stem. Small carmine fruits remain until February.	X	X	X	
M. Almey ALMEY CRAB Large fiery crimson flowers and maroon fruits that last into the Winter season. Hardy and will do well in any location.		X	X	
M. Arnoldiana ARNOLD CRAB Rose colored flowers which fade white produced on long, drooping stems. It is a low spreading tree with long arching branches. The fruit is yellow.	X	X	X	
M. atrosanguinea CARMINE CRAB This sort has red buds, purplish in tone, opening red instead of white. Fruit is reddish-yellow. Picturesque, spreading habit with a round topped effect.	X	X	X	
M. dolgo DOLGO CRAB Broad, graceful loose habit with white blossoms and large red fruits.	X	X	X	
M. eleyi ELEY CRAB Makes a bushy growth with bronze red leaves. The flowers are rosy-carmine made up of large broad petals followed by attractive red fruits.	X	X	X	X
M. floribunda FLOWERING CRAB One of the handsomest and most reliable. The buds are carmine but change to pink and then to white single flowers. The fruit is the size of a pea and red. Tremendously profuse blooming.	X	X	X	X
M. hopa HOPA CRAB Deep pink single flowers, red fruit and attractive bronze foliage. Fruit good for jelly.	X	X	X	X
M. niedzwetzkyana REDVEIN CRAB The leaves are brownish-red, smooth and shining. The fruit, flowers and twigs all have a cast of red.	X	X	X	
M. Red Silver RED SILVER CRAB Red in bud, flower, bark, tree and leaf. Delicate silver on underside of leaf.	X	X	X	
M. Scheideckeri SCHEIDECKER CRAB Flowers semi-double, pink; buds red. Fruit yellow. Small tree of pyramidal habit.	X	X	X	X
M. spectabilis CHINESE CRAB A tall shrubby sort. Flowers pink, fragrant, semi-double. Fruit not showy, pale yellow, not large. Leaves smooth and shining.	X	X	X	
M. theifera TEA CRAB Lovely tree bearing numerous clusters of flowers which are rose-red in bud and pale when opened. The yellow fruits serve to make this plant appear to be in bloom in Winter. Sturdy and spreading.	X			

SIZES AVAILABLE APPEAR AFTER EACH VARIETY

2 to 3 ft.\$1.00	4 to 5 ft.\$2.50
3 to 4 ft. 1.50	5 to 6 ft. 3.50
6 to 7 ft.\$5.00	

Add 50c. Extra for Potted or Balled and Burlapped

SARGENT'S (FLOWERING) CRAB (See page 17)

Oxydendrum - Sourwood

Oxydendrum arboreum SOURWOOD
"Sourwood" because of the acid taste of the foliage. Slow growing, graceful little tree producing spiky panicles of greenish white flowers late in Summer. Its chief attraction is the brilliant orange and scarlet foliage in the Autumn. Hardy in any soil or location and endures shade. Also grown in bush form.
2 to 3 ft., B and B.....\$3.50 | 3 to 4 ft., B and B.....\$4.50
4 to 5 ft., B and B.....\$6.00

Prunus - PLUM

Prunus cerasifera Pissardi PURPLE-LEAF PLUM
A small tree with deep purple foliage that will stand the hot Summer weather without burning or fading.
4 to 5 ft.....\$2.50 | 5 to 6 ft.....\$3.50 | 6 to 8 ft.....\$5.00

P. Newport NEWPORT PLUM
An improved purple-leaf Plum with deeper and better colored foliage. A pleasing contrast when planted among other trees or shrubs.
3 to 4 ft.....\$2.00 | 4 to 5 ft.....\$2.50

P. triloba FLOWERING PLUM
Small, shrubby tree covered with small, double, bright pink flowers before the leaves appear. This is an old-fashioned favorite that will brighten up any shrub planting.
2 to 3 ft.....\$1.50 | 4 to 5 ft.....\$3.00
3 to 4 ft.....2.25 | 5 to 6 ft.....5.00
6 to 8 ft.....\$6.00

FLOWERING CRAB FLORISUNDA (See page 17)

Prunus - JAPANESE FLOWERING CHERRIES

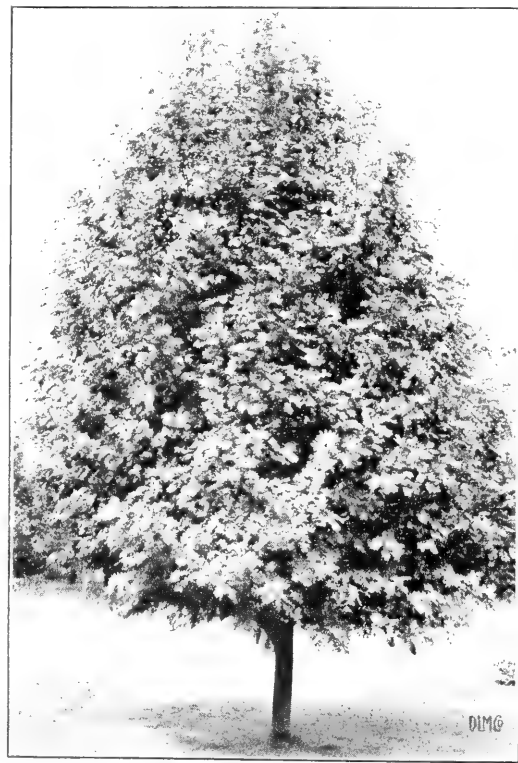

The Japanese Cherries planted around the Tidal Basin at Washington have added greatly to the popularity of this group. Trees of medium height, some pyramidal to vase shape, and some of the weeping type. In New England they should be planted in sheltered locations.

Prunus serrulata Kwanzan KWANZAN CHERRY
One of the latest Japanese Cherries to bloom and probably the finest variety. The tree is upright in habit. Buds are red, flowers are double, deep pink.
6 to 7 ft.....\$6.00 | 7 to 8 ft.....\$7.50

P. serrulata, Mt. Fuji MT. FUJI CHERRY
The best double white Japanese Flowering Cherry.
4 to 5 ft.....\$4.00 | 5 to 6 ft.....\$5.00

P. serrulata shirofugen SHIROFUGEN CHERRY
Pink buds opening to double white.
6 to 7 ft.....\$6.00

P. subhirtella pendula WEEPING FLOWERING CHERRY
The hardiest and most satisfactory Japanese Cherry for our section of New England. Its weeping habit makes it a splendid specimen and it should be given plenty of room for development. One of the handsomest of early flowering trees, producing single pink flowers in great profusion.
4 Year Heads
Single Flowers. 6 to 8 ft.....\$9.00

MOUNTAIN ASH

Sorbus - MOUNTAINASH

Sorbus americana AMERICAN MOUNTAIN ASH
Small tree, native to New England and the White Mountains. One of the most conspicuous trees in Fall, with its abundant heads of bright red fruits.
5 to 6 ft.....\$3.00 | 6 to 8 ft.....\$4.50
8 to 10 ft.....\$6.00

S. aucuparia EUROPEAN MOUNTAIN ASH
Similar to preceding variety, but growing somewhat larger and more symmetrical. Fruits brilliant orange-red in early Fall.
6 to 8 ft.....\$4.50 | 10 to 12 ft.....\$7.50
8 to 10 ft.....6.00 | 1½ to 1¾ in. caliper...\$9.00

Syringa - LILAC

Syringa japonica JAPANESE TREE LILAC
A small tree or large shrub with large, leathery, lilac leaves. The yellowish white flowers come after all other Lilacs are through blooming.
3 to 4 ft.....\$2.50

ADAMS POTTED ROSES

Our list contains many of the new and hardiest varieties for our climate. Our plants are two years old of top quality and potted in large paper pots. After years of experience it is our expert opinion that our method of potting is superior to PACKAGE or DORMANT ROSES.

They will be ready for delivery about May 20th. In two or three weeks they will burst into bloom. The only exception are the CLIMBERS, which bloom the following year.

Potted Roses

The illustration at left gives you a good idea of the quality and condition in which you will receive our Potted Roses. Just remove the paper pot by slitting down the side; plant so that the top of the earth ball is 4 to 6 inches below the surface, and water well. Our Potted Roses will not stop even to catch their breath before they will supply you with an abundance of bloom. Ready for delivery about May 20.

POTTED FLORIBUNDA ROSES

These Roses are large-flowered, very hardy and truly everblooming. They are noted for producing great masses of blooms. This group of Roses is used very effectively when grown in beds, or in border plantings and they are the finest for hedge purposes. Plant 2 to 3 feet apart.

They Bloom All Summer

Baby Blaze (Plant Pat. No. 1362). Deep, red pointed buds that mature to velvety red. \$2.25 each.

Betty Prior (Plant Pat. No. 340). Buds are lively red opening to shell pink. Best for mass planting. \$1.90 each.

Circus (Plant Pat. No. 1382). Buds bright yellow and orange. Flowers multicolored changing from orange to pink to gold and red. The only All-America Selection for 1956. \$2.50 each.

Fashion (Plant Pat. No. 789). Enchanting fragrance. Brilliant coral overlaid with gold. \$2.00 each.

Goldilocks (Plant Pat. No. 672). Bud and Flower are rich golden yellow in color. \$1.90 each.

Improved Lafayette. Double cherry red, blooms prolific. \$1.90 each.

Independence (Plant Pat. No. 1036). Vivid red flowers, rich glossy foliage. \$2.00 each.

Lilibet (Plant Pat. No. 1209). Exquisite pink buds and blooms. Excellent for small arrangements. \$2.00 each.

Ma Perkins (Plant Pat. No. 1143). Prolific soft shell pink suffused with yellow. \$2.00 each.

Pinocchio (Plant Pat. No. 484). Tiny, salmon-pink blooms. Dwarf, bushy. \$1.90 each.

Vogue (Plant Pat. No. 926). Flame red buds forming into rich cherry-coral bloom. \$2.00 each.

World's Fair (Plant Pat. No. 362). Large double velvet rich scarlet flowers. \$1.90 each.

POTTED CLIMBING ROSES

\$1.90 each

Except As Noted:

American Pillar. Single chaste pink blooms.

Climbing American Beauty. Double rose pink.

Climbing Crimson Glory (Plant Pat. No. 736). Crimson. \$2.50 each.

Coral Dawn (Plant Pat. No. 1117). Everblooming coral pink. \$2.50 each.

Dorothy Perkins. Soft shell pink. Small flowers in clusters.

Doubloons. Fragrant double yellow.

Dr. Van Fleet. Double flesh pink. Fragrant.

Excelsa. Clusters of small red flowers.

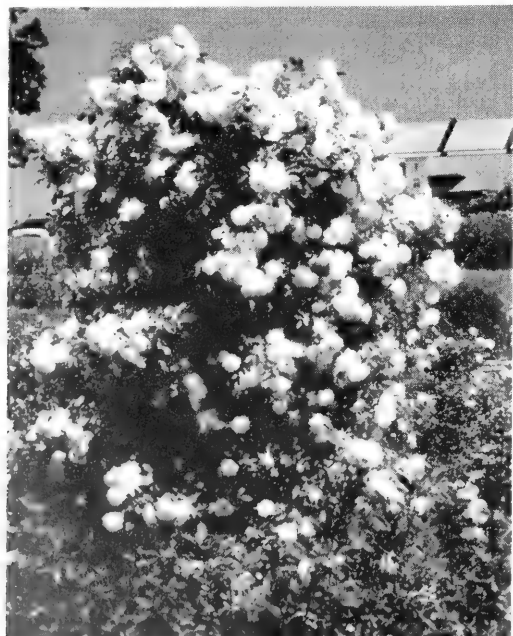

Mary Wallace. Fragrant, semi-double pink blooms.

New Blaze. Vivid, double, everblooming bright scarlet.

New Dawn. Profuse, fragrant, everblooming shell pink.

Paul's Scarlet. Semi-double clusters of scarlet flowers.

Primrose. Yellow trusses.

CLIMBING ROSES

FLORIBUNDA ROSES

POTTED POLYANTHA BUSH ROSES

\$1.90 each

Gloria Mundi. Brilliant orange-scarlet in large cluster.

Ideal. Dark red. Always in bloom.

Triumphant Orleans. Cerise-red. Profuse bloomer.

BUY FIVE OR MORE ROSES AT ONE TIME
SAVE 15 CENTS ON EACH PLANT

CLIMBING VINES

Some are evergreen like the Euonymus. Others produce beautiful flowers such as the Clematis, Honeysuckle and Wistaria. Should you want Fall color choose the ivys and for colorful fruits the Bittersweet. They will transform bare walls and fences into beauty spots. For similar purposes may we suggest Climbing Roses which will be found on page 22.

Ampelopsis - IVY

Ampelopsis brevipedunculata maximowiczii

PORCELAIN AMPELOPSIS

Vigorous climber with deeply lobed leaves. Multicolor fruit borne in medium-sized clusters that are not equalled in beauty by that of any other woody vine.

2 year.....\$0c.

Ampelopsis see Parthenocissus.

Aristolochia - DUTCHMAN'S PIPE

Aristolochia durior

DUTCHMAN'S PIPE

A very rapid-growing vine with very large, light green leaves which retain their color from early Spring to late Fall. Peculiar brownish flowers which resemble a miniature pipe.

Potted plants.....\$2.50

Campsis - TRUMPETVINE

Campsis radicans

TRUMPETVINE

An old friend of vigorous growth forming a spreading bush with arching branches. Placed against a building, tree, or trellis it will climb rapidly. Tropical-looking foliage. Trumpet-shaped scarlet flowers in Midsummer.

2 year.....\$1.00

Celastrus - BITTERSWEET

Celastrus orbiculatus

ORIENTAL BITTERSWEET

An oriental shrub which will climb if given support. In the Fall it produces an abundance of brilliant orange and scarlet fruits. Very showy after the foliage has fallen. Sprays cut and brought into the house last for a long time.

2 year.....75c.

C. scandens

COMMON BITTERSWEET

This native variety is similar to, and just as desirable as the Oriental type. The colorful clusters of orange and scarlet fruits are very popular for home decoration.

2 year.....75c.

CLEMATIS

Clematis paniculata

SWEET AUTUMN CLEMATIS

Very popular, fast-growing vine which with support will climb 20 to 25 ft. Neat glossy foliage and in September is completely covered with fragrant, white, star-shaped flowers. Later its feathery seed-pods create the illusion of a second blooming period.

2 year.....75c. | Potted plants.....\$1.25

Clematis, Large-Flowering Hybrids

Vines, 6 to 12 ft., requiring a trellis or wire support. Very desirable because of their large, showy flowers, 5 to 6 in. across in Midsummer. They thrive best in a rich, limestone soil and should not be planted in exposed locations.

Henryi. Large, creamy white flowers.

Jackmani. Very popular purple variety.

Mme. Edouard Andre. Rich bright red.

Ramona. Lavender-blue.

2 year, potted.....\$1.50

Hedera - ENGLISH IVY

Hedera helix baltica

BALTIC IVY

A hardy evergreen variety that makes a good ground cover. Small foliage. Plant in mass under trees or other shady or semi-shady locations.

3 in. potted plants, 15 in. runners.....\$6.00 per 10, \$54.00 per 100

EUONYMUS

One of the most useful groups of evergreen vines. They are particularly desirable on account of their dense evergreen foliage, their willingness to grow in partial shade, and their extreme hardiness. Useful for edging evergreen beds, walks, borders, and as trailing plants in rockeries. As climbing vines on stonework they are most useful.

Prices Bare Root, Add 35c. for Balling

Euonymus radicans

WINTERCREEPER

A very desirable evergreen vine or ground cover. Use it on stone walls or foundations and as undergrowth in evergreen borders. Very hardy and does well in the shade.

12 to 15 in. spread.....\$1.25

E. radicans Carrierei

GLOSSY WINTERCREEPER

A stronger and bushier grower than Radicans, and one of the larger leaved varieties. It is upright in habit and may be used as a specimen bush, as an evergreen hedge, or as a climber if given a little support.

15 to 18 in. spread.....\$1.50 | 18 to 24 in. spread.....\$1.85

E. radicans coloratus

PURPLE-LEAF WINTERCREEPER

This variety is remarkable for the red tints of the foliage in Autumn, changing to bronze during the Winter.

12 to 15 in. spread.....\$1.00 | 15 to 18 in. spread.....\$1.25

18 to 24 in. spread.....\$1.50

E. radicans minimus

BABY WINTERCREEPER

The smallest Euonymus. The leaves are about $\frac{1}{4}$ in. wide and a little longer. As a low evergreen ground cover it forms a perfect mat of green. A fine variety for the rock garden, low walls, low slopes, and edge of pools.

5 $\frac{1}{2}$ in. pots.....75c.

E. radicans vegetus

BIG-LEAF WINTERCREEPER

Sometimes called the Evergreen Bittersweet, because of the orange-red berries which it carries during the Winter. It is the largest and strongest grower after it becomes established.

12 to 15 in. spread.....\$1.75 | 15 to 18 in. spread.....\$2.25

18 to 24 in. spread.....\$2.60

Above Prices for Bare Root, Add 35c. for Balling

HYDRANGEA

Hydrangea petiolaris

CLIMBING HYDRANGEA

A choice hardy climber that deserves more extensive cultivation. Will climb brick, stone, and cement walls, without support. Foliage bright green, with an abundance of large, flat, fragrant, white Hydrangea-like blooms in June.

6 in. pots.....\$2.50

Schizophragma hydrangeoides JAPANESE HYDRANGEA-VINE

Foliage is coarser and more lustrous and the white flowers are larger than Climbing Hydrangea. About 2 weeks later. Loves the shade and climbs well on brick or stone as well as on the bark of a tree.

6 in. pots.....\$2.50

BIG-LEAF WINTERCREEPER

Lonicera - HONEYSUCKLE

Lonicera Heckrottii GOLDEN FLAME HONEYSUCKLE
A new everblooming Honeysuckle. A twisting, twining plant growing 15 to 20 ft. high. Flowers produced in clusters. Curved petals, red outside and yellow within.

2 year plants.....\$1.25

L. japonica halliana HALLS JAPANESE HONEYSUCKLE
An excellent climber with smooth, glossy dark green foliage. Large, fragrant, white flowers turning yellow; a most constant bloomer. Very desirable for roadside and bank plantings.

1 year.....50c. | Potted plants.....90c.

L. sempervirens SCARLET TRUMPET HONEYSUCKLE
High climbing vine with neat dark green foliage. Orange-scarlet, tubular-shaped flowers in terminal clusters from May to September. Endures semi-shade.

2 year.....75c.

L. sempervirens magnifica NEW CORAL HONEYSUCKLE
A magnificent new Honeysuckle with large, coral-colored blooms and beautiful blue-gray-green foliage. The brilliant and cheerful flowers are freely produced; a worth-while novelty.

2 year.....75c.

L. Tellmaniana TELLMANN HONEYSUCKLE
Strong growing. Long giant tubular golden yellow flowers.

2 year.....\$1.00

Parthenocissus - IVY

Parthenocissus quinquefolia

Native, hardy climber of very rapid growth. Rich green, deeply cut foliage, turning rich crimson in the Fall. Excellent for climbing over trees, walls, slopes and banks.

2 year.....60c. | 3 year.....75c.

P. quinquefolia Engelmanni

Does not differ much from the preceding variety except that it has generally smaller foliage and is a little more refined.

2 year.....60c.

P. tricuspidata Lowi

A reduced edition of the common Boston Ivy. A small slender vine and more delicate in every respect. Useful for low stone walls. Exquisite Autumn coloring.

3 in. pots.....75c.

P. tricuspidata (Veitchii)

Perhaps the most popular Ivy because its adhesive tips cling tenaciously to most any vertical wall. The beautiful, overlapping foliage turns striking Autumn colors. A rapid-growing vine, excellent for brick, stone or stucco walls, clinging without artificial fastening.

2 year.....75c. | Potted plants.....\$1.00

Polygonum - SILVER LACE VINE

Polygonum Auberti

SILVER LACE VINE

Established plants will climb 25 ft. during one season if given support. Produces foamy sprays of creamy white flowers during the Summer and Fall months. An excellent vine for covering waste spaces, ugly buildings, and fences.

2 year potted plants.....\$1.25

WISTARIA

Wistaria sinensis

PURPLE CHINESE WISTARIA

This well-known, desirable vine gives a distinct Oriental appearance to any trellis or garden house. After becoming established, it will produce a great profusion of showy, purple, pendulous blooms of rich fragrance.

2 year.....\$1.50 | 3 year.....\$2.00

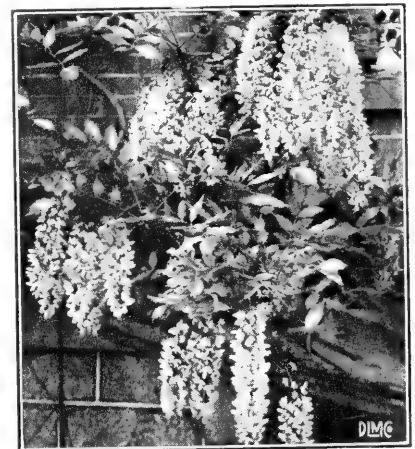

Potted plants.....\$2.50

W. sinensis alba

WHITE CHINESE WISTARIA

A white-flowering form of the preceding variety.

3 year.....\$2.50 | Potted plants.....\$3.00

PURPLE CHINESE WISTARIA

VIRGINIA CREEPER

Native, hardy climber of very rapid growth. Rich green, deeply cut foliage, turning rich crimson in the Fall. Excellent for climbing over trees, walls, slopes and banks.

2 year.....60c. | 3 year.....75c.

ENGELMANN IVY

Does not differ much from the preceding variety except that it has generally smaller foliage and is a little more refined.

2 year.....60c.

LOW'S IVY

A reduced edition of the common Boston Ivy. A small slender vine and more delicate in every respect. Useful for low stone walls. Exquisite Autumn coloring.

3 in. pots.....75c.

BOSTON IVY

Perhaps the most popular Ivy because its adhesive tips cling tenaciously to most any vertical wall. The beautiful, overlapping foliage turns striking Autumn colors. A rapid-growing vine, excellent for brick, stone or stucco walls, clinging without artificial fastening.

2 year.....75c. | Potted plants.....\$1.00

Plants Especially Useful as Ground Covers

Lonicera japonica halliana

HALLS JAPANESE HONEYSUCKLE

An excellent climber with smooth, glossy dark green foliage. Large, fragrant, white flowers turning yellow; a most constant bloomer. Very desirable for roadside and bank plantings.

1 year.....50c. | Potted plants.....90c.

Pachysandra terminalis

JAPANESE SPURGE

One of the best evergreen ground covers. It does equally well in sun or shade, and retains its glossy, deep green foliage during the whole year. A good border for evergreen beds and for places where grass will not grow. Plants should be set 6 in. apart each way.

2 year pot grown.....\$3.50 per 10, \$31.50 per 100

V. minor, Bowles'

BOWLES' MYRTLE

An improved variety. Has heavier foliage and larger blue flowers.

3 in. pots.....\$4.50 per 10, \$40.00 per 100

Zanthorhiza apiifolia

YELLOW-ROOT

A low-growing shrub which makes a splendid ground cover. Will grow anywhere, but prefers a moist, shady location. The plum-colored flowers in April are not conspicuous, but in the Fall the foliage turns brilliant yellow and is both showy and handsome.

9 to 12 in.....\$8.50 per 10

Also, Climbing Roses on Page 22 and the numerous varieties of Wintercreeper as found on Page 23

Hedera helix baltica

BALTIC IVY

A hardy evergreen variety that makes a good ground cover. Small foliage. Plant in mass under trees or other shady or semi-shady locations.

3 in. potted plants, 15 in. runners. \$6.00 per 10, \$54.00 per 100

FLOWERING SHRUBS

Our list of FLOWERING SHRUBS includes many that originate from the four corners of the world noted for their gorgeous blooms, bright berries and handsome foliage that in many instances turn to brilliant Autumn colors. We are continuously experimenting with new varieties to keep our collection up to date, retaining only the aristocrats of proven hardiness. You are assured of getting only "BETTER PLANTS FOR NEW ENGLAND," the most inexpensive plant material for creating beautiful landscapes. See sketches on page 3 showing how to plant.

Acanthopanax - ARALIA

- Acanthopanax sieboldianus** ARALIA
Graceful, arching growth up to 6 or 8 ft., with bright green foliage and prickly stems. Flowers inconspicuous. If you have a dry shady place, this shrub is the answer.
18 to 24 in. 50c. | 3 to 4 ft. Available Fall. \$1.00
2 to 3 ft. 75c. | 4 to 5 ft. Available Fall. 1.25

Aesculus - HORSECHESTNUT

- Aesculus parviflora** DWARF HORSECHESTNUT
This large shrub spreads to form a huge clump. Produces tiny white flowers in long candlelike clusters, blooming in July and August. Handsome plant for a lawn clump.
3 to 4 ft. Balled and Burlapped. \$7.50
4 to 5 ft. Balled and Burlapped. 9.00
5 to 6 ft. Balled and Burlapped. 12.00

Amelanchier - SHADBLOW

- Amelanchier canadensis** SHADBLOW
Hardy, native, large shrub or small bushy tree. Very showy in Spring with its numerous large, white, drooping flowers. Fruits, which mature in July, attract the birds. A splendid variety for naturalizing at the woods' edge.
2 to 3 ft. \$1.50 | 3 to 4 ft. \$1.75
4 to 5 ft. \$2.00

Aronia - CHOKEBERRY

- Aronia arbutifolia** RED CHOKEBERRY
Densely branched, upright shrub. Attractive white flowers followed by profuse masses of bright red berries. Glossy green foliage turning brilliant red in the Fall. Attractive at all times in the shrub border. It grows readily in New England, particularly in locations where it can have moist soil.
2 to 3 ft. Available Fall. \$1.00
A. melanocarpa BLACK CHOKEBERRY
Similar to preceding variety, but having shiny black fruits. Does not grow as tall and will stand drier location.
18 to 24 in. 75c. | 2 to 3 ft. \$1.00
3 to 4 ft. \$1.25

Berberis - BARBERRY

- Berberis Koreana** KOREAN BARBERRY
A new hardy species from Korea. Medium height shrub with foliage twice the size of common Barberry, having spiny edges resembling Holly. Gorgeous red Fall coloring and large clusters of red berries.
12 to 18 in. Available Fall. 45c. | 18 to 24 in. Available Fall. 60c.
B. Thunbergi JAPANESE BARBERRY
Naturally a dense, bushy, thorny plant. Its graceful habit, vivid Autumn coloring, and beautiful fruits are its distinguishing features. Since the fruits are not liked by the birds, they remain the entire Winter, giving a cheerful aspect to many Winter plantings. Not fussy as to soil requirements and will stand semi-shade. The small, sharp thorns make it a barrier to small animals.
9 to 12 in. 25c. each, 30 or more 20c. each
12 to 18 in. 35c. each, 30 or more 30c. each
18 to 24 in. 50c. each, 30 or more 45c. each
2 to 2½ ft. 75c. each, 30 or more 60c. each
B. Thunbergi atropurpurea RED-LEAVED BARBERRY
Same as Thunbergi except that the foliage is bright red in the Spring, dull red in Summer, and blazing scarlet in Fall. Plant in full sun to develop the best color.
9 to 12 in. 45c. each, 30 or more 40c. each
12 to 15 in. 60c. each, 30 or more 55c. each
15 to 18 in. 75c. each, 30 or more 70c. each
18 to 24 in. \$1.00
B. Thunbergi atropurpurea nana CRIMSON PIGMY BARBERRY
A new slow growing dwarf form of the Red Leaved Barberry. Foliage holds its red color all Summer. Excellent for edging.
1 to 8 in. \$1.30
B. Thunbergi minor BOX BARBERRY
Very dwarf, compact, bushy grower. When sheared it makes a neat edging for walks or beds.
12 to 15 in. 60c. | 15 to 18 in. 75c.

BUTTERFLYBUSH (Buddleia)

Buddleia - BUTTERFLYBUSH

- Buddleia alternifolia** CHINESE BUTTERFLYBUSH
Erect, spreading shrub. The narrow panicles of lavender-purple flowers resemble so much those of the lilac that it is sometimes called the Summer Lilac. This graceful shrub is the hardiest of all the Buddleias.
B. Charming
A new glorious Buddleia, bearing throughout late Summer and Autumn long sprays which compared with other Buddleias are distinctly pink.
B. Ile de France
A splendid new form. Easily the finest of all Buddleias because of its massive spikes of purple flowers, each illuminated by a brilliant golden eye. Vigorous, free-flowering, hardy type.
Price on above varieties of Buddleia:
2 yr., No. 1. \$1.00

Calycanthus - SWEET SHRUB

- Calycanthus floridus** SWEET SHRUB
Almost everyone knows this shrub or its deliciously fragrant, red-brown flowers produced in early Spring, with neat, glossy foliage. Grows in almost any soil, in either sun or shade.
12 to 18 in. 75c. | 18 to 24 in. \$1.00
2 to 3 ft. \$1.50

Caragana - PEA-TREE

- Caragana arborescens** SIBERIAN PEA-TREE
A very hardy, tall shrub with green bark, pretty foliage, and small, yellow, pea-shaped flowers in June. A good subject for the shrub border.
18 to 24 in. 60c. | 3 to 4 ft. \$1.20
2 to 3 ft. 90c. | 4 to 5 ft. 1.50
5 to 6 ft. \$1.75

Customers are always welcome at Adams Nursery-Mart. You will not be approached unless you express a desire for service. Plenty of parking space.

FLOWERING SHRUBS—Continued

Cephalanthus occidentalis BUTTON BUSH

Fragrant, creamy white flowers borne in round heads July-September. Good foliage. Likes moisture.

18 to 24 in. 60c. | 2 to 3 ft. 90c. | 3 to 4 ft. \$1.20

Chaenomeles - QUINCE

Chaenomeles lagenaria FLOWERING QUINCE

Compact shrub with spreading, irregular, spiny branches. Refined glossy green leaves and conspicuous scarlet-red flowers in May. Thrives in any good soil but requires a sunny location. Fine material for the shrub border and makes an impenetrable hedge.

12 to 18 in. 50c. | 18 to 24 in. 75c. | 2 to 3 ft. \$1.00

C. lagenaria Upright UPRIGHT FLOWERING QUINCE

This is an upright form of the above variety.

12 to 18 in. 75c. | 18 to 24 in. \$1.00 | 2 to 3 ft. \$1.25

C. Crimson Beauty. Available Fall.

Similar to the above only has large crimson flowers.

C. Nivalis WHITE FLOWERING QUINCE

White flowers.

C. sanguinea SCARLET FLOWERING QUINCE

Dark red flowers.

C. vermilion VERMILION FLOWERING QUINCE

Price on above varieties of Chaenomeles:

12 to 18 in. \$1.00 | 18 to 24 in. \$1.25
2 to 3 ft. \$1.50

Clethra - SUMMER SWEET

Clethra alnifolia SUMMER SWEET

During the hottest part of Summer it produces a profusion of fragrant white flowers, a feature that makes it valuable for shrub borders. Grows to medium height and thrives in shady, moist soil.

12 to 18 in. 75c. | 18 to 24 in. \$1.00
2 to 2½ ft. Available Fall. \$1.25

Cornus - DOGWOOD

Cornus alba sibirica SIBERIAN DOGWOOD

A tall, broad, upright shrub suitable for large borders. A wealth of white Spring blooms, numerous white berries in Fall that attract the birds, and brilliant red bark that makes it very decorative in Winter. Grows in any soil and endures semi-shade.

18 to 24 in. 50c. | 3 to 4 ft. \$1.00
2 to 3 ft. 75c. | 4 to 5 ft. Available Fall. 1.25

C. alba elegantissima VARIEGATED DOGWOOD

Same as above variety except variegated green and white foliage.

18 to 24 in. Available Fall. \$1.25 | 2 to 3 ft. Available Fall. \$1.50

C. baileyi BAILEY DOGWOOD

A very handsome species of upright growth with dark red branches. The Fall color of foliage and Winter color of branches unequalled. Will do well in sandy soil.

18 to 24 in. 50c. | 2 to 3 ft. 75c.
3 to 4 ft. \$1.00

C. paniculata GRAY DOGWOOD

Free-flowering tall shrub, having clusters of white flowers in Spring, followed in Autumn by white berries on red stems.

18 to 24 in. 50c. | 3 to 4 ft. \$1.00
2 to 3 ft. 75c. | 4 to 5 ft. 1.25
5 to 6 ft. \$1.50

C. stolonifera flaviramea GOLDEN-TWIG DOGWOOD

Shrub of medium height having bright yellow bark. Very decorative in Winter and adapted to any shrub border.

18 to 24 in. 50c. | 3 to 4 ft. \$1.00
2 to 3 ft. 75c. | 4 to 5 ft. 1.25

Cotinus - SMOKE TREE

Cotinus coggygia COMMON SMOKE TREE

A rather dense spreading shrub. It owes its garden value and common name to the cloudlike appearance of its mass of plummy fruiting parts which appears as a film of smoke in August. The Autumn leaf tints of yellow and purple also recommend it. Prefers a sunny location in dry well-drained soil.

18 to 24 in. \$1.00 | 2 to 3 ft. \$1.25
3 to 4 ft. \$1.50

Cotoneaster

Cotoneaster acutifolia PEKIN COTONEASTER

A splendid hedge plant with slender spreading branches, sharply pointed foliage and inconspicuous flowers. Glossy black fruits in October. Very hardy.

18 to 24 in. Available Fall. 50c. | 2 to 3 ft. 75c.
3 to 4 ft. \$1.00

C. divaricata SPREADING COTONEASTER

Spreading shrub. Tiny neat foliage and small pink flowers produced in June, followed by bright red fruit in September.

18 to 24 in. \$1.00 | 2 to 3 ft. \$1.25
3 to 4 ft. \$1.50

C. hupehensis HUPEH COTONEASTER

This attractive variety came from China and is one of the few Cotoneasters which have conspicuous clusters of white flowers along its slender stems. In Autumn it is covered with brilliant crimson fruits.

12 to 18 in. 50c.

Desmodium penduliflorum PURPLE BUSH CLOVER

Medium growing. Graceful pendulous branches. Rosy purple flowers.
2 year. 75c.

Deutzia

Deutzia gracilis SLENDER DEUTZIA

Popular, compact, dwarf shrub. Graceful fountain-like bush covered in May with a profusion of white flowers. Useful in foundations and foregrounds of shrub borders.

12 to 18 in. \$1.00

D. Lemoinei LEMOINE DEUTZIA

A hybrid of Gracilis, growing more vigorous, a little taller, and with showier white flowers. Grows in almost any soil but prefers a sunny location.

12 to 15 in. 50c. | 2 to 2½ ft. \$1.25

D. scabra, Pride of Rochester

Vigorous-growing shrub. Double white flowers, tinged with pink, on upright branches.

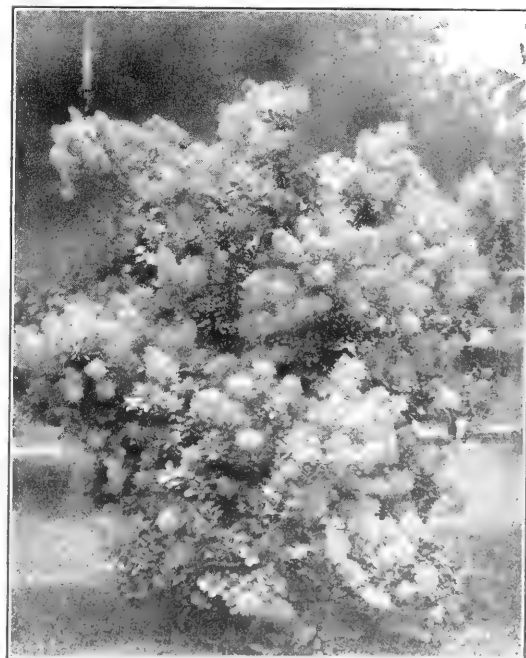

18 to 24 in. 50c. | 2 to 3 ft. Available Fall. 75c.
3 to 4 ft. Available Fall. \$1.00

Enkianthus

Enkianthus campanulatus RED-VEIN ENKIANTHUS

Very ornamental, tall-growing variety with drooping racemes of small, yellowish or pale orange flowers, which hang in clusters during May. Gorgeous, brilliant red foliage in the Autumn. Very desirable for specimens and grows best in an acid or sour soil.

2 to 3 ft. Balled and Burlapped. \$4.00

SMOKE TREE (Cotinus Coggygia)

FLOWERING SHRUBS—Continued

Euonymus

Euonymus alatus

WINGED EUONYMUS

Bushy, compact, upright plant with curious corky bark that spreads out in flat wings. No doubt one of the most conspicuous varieties in the Autumn. with its brilliant scarlet foliage and fruits. Very useful as a tall plant in the shrub border and endures partial shade.

18 to 24 in.\$2.25 | 2 to 2½ ft.\$3.00
2½ to 3 ft.\$3.50

Add 35c. each for Balled and Burlapped

E. alatus compacta

DWARF WINGED EUONYMUS

A choice compact shrub similar to the preceding variety, but slower growing and much more dwarf. The Arnold Arboretum in Boston considers this the outstanding shrub for Fall color. Indifferent to soil shade, and city conditions. Makes a most unusual and attractive hedge.

18 to 24 in.\$3.00 | 2 to 2½ ft., (available Fall)\$3.50

Add 35c. each for Balled and Burlapped

E. bungeanus

WINTERBERRY EUONYMUS

A large shrub or small tree with broad spreading branches. Yellow Autumn foliage and orange fruits in September.

3 to 4 ft.\$1.00 | 4 to 5 ft.\$1.50
5 to 6 ft.\$2.00

E. europaeus

EUROPEAN EUONYMUS

An erect shrub or small tree. Red Autumn foliage with pink fruits which break open in the manner of the Bittersweet and display red seeds within.

18 to 24 in.60c. | 3 to 4 ft.\$1.00
2 to 3 ft.75c. | 4 to 5 ft.1.50

E. yedoensis

YEDDO EUONYMUS

Large, upright shrub, remarkable for its brilliant red foliage and pink fruits in Fall.

18 to 24 in.75c. | 2 to 3 ft.\$1.00
3 to 4 ft.\$1.25

Large Leaved Variety of Above:

2 to 3 ft.\$1.00 | 3 to 4 ft.\$1.25
4 to 5 ft.\$1.50

Exochorda - PEARL-BUSH

Exochorda grandiflora

PEARL-BUSH

Tall, bushy plant. Very showy in May, with fairly large clusters of pure white flowers. Makes a fine specimen or group in the shrub border.

3 to 4 ft.\$1.50

Forsythia - GOLDEN BELL

Forsythia intermedia spectabilis SHOWY BORDER FORSYTHIA

Regarded by many as the finest. Large, rich yellow flowers are produced profusely.

F. intermedia spectabilis Farrand FARRAND FORSYTHIA

This is a hybrid cross between Arnold Giant and Spectabilis. Flowers 2½ in. across, lemon yellow.

F. Lynwood Gold LYNWOOD FORSYTHIA

New variety, extremely floriferous with very large golden yellow flowers.

F. ovata EARLY FORSYTHIA

Introduced from Korea in 1917. The earliest of all Forsythias to bloom and the hardiest.

F. Spring Glory

Large, pale yellow blossoms covering the branches in masses of pleasing color.

F. suspensa WEEPING FORSYTHIA

A rampant, rambling variety with some of its branches decidedly pendulous. Bright yellow flowers that form arches of gold. At its best when permitted to ramble over banks or stone walls.

Prices on above varieties of Forsythia:

18 to 24 in.75c. | 3 to 4 ft.\$1.15
2 to 3 ft.90c. | 4 to 5 ft.1.30
5 to 6 ft.\$1.50

WITCH-HAZEL

Hamamelis - WITCH-HAZEL

Hamamelis vernalis

VERNAL WITCH-HAZEL

A spreading, compact shrub of medium height. Interesting because of its unusual time of bloom. Any warm day between January and March one may see its small yellow flowers in bloom. A truly Winter-blooming shrub.

18 to 24 in.\$1.00 | 2 to 3 ft. Available Fall...\$1.50

H. virginiana

WITCH-HAZEL

Tall shrub producing its odd yellow blooms after the leaves have fallen in November. Prefers a moist soil.

2 to 3 ft.\$1.25 | 3 to 4 ft.\$1.50
4 to 5 ft.\$2.00

Hibiscus - ROSE OF SHARON

Hibiscus syriacus

ROSE OF SHARON OR ALTHEA

Native of China. Upright, compact, broad shrub sometimes growing in a tree form. The large, bell-shaped flowers are produced in August at a time when few other shrubs are in bloom. Indifferent to soil conditions but likes a sunny location. We offer the following colors:

Anemonaeflorus. Double pink. 2 to 3 ft.

Banner. Double white, red eye. 2 to 3 ft., 3 to 4 ft., 4 to 5 ft.

Coelestis. Blue. 18 to 24 in., 2 to 3 ft.

Jeanne d'Arc. Double white. 2 to 3 ft.

Lucy. Double red. 2 to 3 ft.

Purpurea semi-plena. Double purple. 2 to 3 ft., 3 to 4 ft.

Rubis. Single red. 2 to 3 ft.

Prices on above varieties:

2 to 3 ft.\$1.00 | 3 to 4 ft.\$1.35
4 to 5 ft.\$1.50

Hydrangea

Hydrangea arborescens grandiflora

HILLS-OF-SNOW

An upright shrub. Pure white clusters of flowers 4 to 5 in. in diameter are produced in June and July when there is a scarcity of shrub bloom. Prefers a moist soil and endures partial shade. Should be severely pruned early each Spring. Good for the border foreground or house foundation.

2 to 3 ft.\$1.15

FLOWERING SHRUBS—Continued

Hydrangea—Continued

H. paniculata grandiflora

PEE-GEE HYDRANGEA

The old-fashioned variety that really needs no description. Its familiar large heads of white flowers in late Summer turn bright pink in the Fall. We grow this in excellent tree-shaped plants for specimens, as well as in bush form for the shrub border.

18 to 24 in. 75c. | 2 to 3 ft. \$1.00

TREE FORM—TREE HYDRANGEA

4 to 5 ft. \$2.50 | 5 to 6 ft. \$3.75

Hypericum

Hypericum densiflorum

DENSE ST. JOHNSWORT

Medium sized with bright yellow flowers.

18 to 24 in. 75c. | 2 to 3 ft. \$1.00

Ilex

Ilex verticillata

WINTERBERRY

This very ornamental, upright shrub belongs to the Holly family. In October bright red berries appear which last all Winter and are attractive to the eye as well as to the birds. Prefers a shaded, moist location.

18 to 24 in. \$1.00 | 2 to 3 ft. \$1.25
3 to 4 ft. \$1.50

I. polycarpa

This variety fruits more abundantly than the above and grows more upright; otherwise has the same characteristics.

18 to 24 in. \$1.50 | 2 to 3 ft. \$2.00
3 to 4 ft. \$2.50

Kolkwitzia - BEAUTY-BUSH

Kolkwitzia amabilis

BEAUTY-BUSH

One of the finest of the newer shrubs, producing long sprays of graceful foliage. Flowers are delicate pink, similar in shape to those of the Weigela, but much smaller. Although a rapid grower, it does not bloom profusely, until it becomes thoroughly established.

18 to 24 in. \$0.90 | 4 to 5 ft. \$2.00
2 to 3 ft. 1.25 | 5 to 6 ft. 2.50

Ligustrum - PRIVET

Ligustrum amurense

AMUR PRIVET

An upright plant similar to the better-known California Privet, but more hardy. Makes a very fine formal hedge or screen and, like all the Privets, endures semi-shade.

18 to 24 in. 27c. each, 30 or more 24c. each
2 to 3 ft. 35c. each, 30 or more 30c. each
3 to 4 ft. 45c. each, 30 or more 40c. each

L. ibolium

IBOLIUM PRIVET

The most satisfactory of all the Privets for hedges. It has the large, glossy foliage of the California variety, and the hardness of the Ibota. We believe that this will soon supplant the California, which is not always dependable.

12 to 18 in. 20c. each, 30 or more 15c. each | 2 to 3 ft. 35c. each, 30 or more 24c. each
18 to 24 in. 30c. each, 30 or more 18c. each | 3 to 4 ft. 45c. each, 30 or more 33c. each

L. obtusifolium ibota

IBOTA PRIVET

In this variety the branches are more spreading. Has a rather showy lilac-like white flower and in the Fall and Winter is covered with blue-black berries attractive to the birds. Very valuable for screen and border planting, as well as a fine hedge plant.

2 to 3 ft. 35c. each, 30 or more 24c. each
3 to 4 ft. 45c. each, 30 or more 35c. each
4 to 5 ft. 55c. each, 30 or more 45c. each

L. obtusifolium Regelianum

REGEL PRIVET

A low shrub with branches that are almost horizontal. It has dense foliage, and its graceful habit of growth makes it a fine variety for foundation and border planting, as well as for hedges.

12 to 18 in. \$0.50 each
18 to 24 in.65 each, 30 or more \$0.60 each
2 to 2½ ft., (available Fall)90 each, 30 or more .80 each
2½ to 3 ft., (available Fall) 1.10 each

L. ovalifolium

CALIFORNIA PRIVET

Probably the most popular hedge plant, but unfortunately less hardy than the other Privets. Handsome, upright growth with dark glossy green leaves.

12 to 18 in. 20c. each, 30 or more 15c. each
18 to 24 in. 25c. each, 30 or more 18c. each
2 to 3 ft. 35c. each, 30 or more 24c. each

L. vicaryi

GOLDEN PRIVET

Medium height with bright yellow foliage which holds its color the entire Summer, especially if grown in full sunlight.

8 to 12 in. 60c. | 12 to 15 in. 75c.

WINTERBERRY

Lindera - SPICEBUSH

Lindera benzoin

SPICEBUSH

Attractive in early Spring before the leaves with bright yellow flowers later producing scarlet berries sought after by the birds. Yellow Autumn foliage. Good for naturalizing.

18 to 24 in. 90c. | 2 to 3 ft. \$1.25 | 3 to 4 ft. \$1.50

Lonicera - HONEYSUCKLE

Lonicera Maackii

AMUR HONEYSUCKLE

Tall growing; indifferent to soil conditions but likes a sunny location. Bright red berries.

L. Morrowi

MORROW HONEYSUCKLE

Wide spreading branches. Pretty white flowers in May followed by large quantities of blood-red fruits in August.

Prices on above 2 varieties of Honeysuckle

18 to 24 in. \$0.75 | 3 to 4 ft. \$1.25
2 to 3 ft. 1.00 | 4 to 5 ft. 1.50

BUSH HONEYSUCKLE

FLOWERING SHRUBS—Continued

Lonicera—Continued

L. tatarica alba WHITE TATARIAN HONEYSUCKLE
The chief characteristics of all the tatarian Honeysuckles are the great abundance of small flowers and red fruits that follow. This variety has white flowers.

L. tatarica grandiflora rosea PINK TATARIAN HONEYSUCKLE
Similar to preceding varieties, but having slightly larger, delicate pink flowers.

L. tatarica rubra RED TATARIAN HONEYSUCKLE
Same characteristics as all the Tatarian varieties, with deep rose-pink, almost red flowers.

Prices on above varieties of Honeysuckle:

18 to 24 in.....	\$0.75	3 to 4 ft.....	\$1.25
2 to 3 ft.....	1.00	4 to 5 ft.....	1.50

L. fragrantissima WINTER HONEYSUCKLE
Early in the Spring, before the foliage, numerous small, very sweet scented flowers appear. The rich green foliage persists until Mid-winter.

18 to 24 in.....	90c.	2 to 3 ft.....	\$1.25
3 to 4 ft. Available Fall.....			\$1.50

L. Korolkowi BLUE-LEAF HONEYSUCKLE
Tall, broad-headed shrub with striking blue-gray foliage which contrasts beautifully with its abundance of dainty pink flowers in May. Blooms are followed by bright red fruits. A valuable addition to any border if given plenty of room.

L. Zabeli ZABELL HONEYSUCKLE
By far the best red flowering Honeysuckle. Strong upright growth with large persistent red fruit in August.

Prices on above 2 varieties of Honeysuckle

18 to 24 in.....	\$1.00	2 to 3 ft.....	\$1.25
3 to 4 ft.....			\$1.50

Philadelphus - MOCK ORANGE

Philadelphus coronarius MOCK ORANGE
The old-fashioned Mock Orange that everybody knows and admires. In June is a solid mass of white blooms which are delightfully fragrant. This variety will stand partial shade.

P. Lemoinei LEMOINE MOCK ORANGE
Very popular, graceful, medium growing shrub, bearing clusters of fragrant white flowers in June. Should be included in every shrub planting.

P. Lemoinei, Albatre ALBATRE MOCK ORANGE
One of the famous Lemoine hybrids. Medium height shrub. Large pure white single or semi-double flowers. Very similar to Virginal. Some folks like it better than Virginal because of its symmetrical habit of growth.

P. Lemoinei, Bouquet Blanc
A medium height shrub of dense habit. White flowers borne in bouquet-like clusters.

P. Lemoinei, Enchantment
Rapid grower, blooms freely and with fragrant white flowers.

P. Lemoinei, Glacier
This hybrid is a strong, erect grower of medium height. The clusters of double white flowers, set in panicles, have the appearance of one enormous flower. A very choice variety.

Prices on above varieties of Philadelphus:

18 to 24 in.....	\$0.75	3 to 4 ft.....	\$1.25
2 to 3 ft.....	1.00	4 to 5 ft., Enchantment only.....	1.50

P. virginialis
Medium height and irregular growth, but rated by many as the finest of all Mock Oranges. The first burst of bloom comes in June when the large, semi-double, pure white flowers fairly weight the branches down. The tips of the new shoots bear flowers continuously throughout the Summer. A truly remarkable variety and no doubt one of the best.

18 to 24 in.....	\$1.00	2 to 3 ft.....	\$1.25
3 to 4 ft.....			\$1.50

Photinia

Photinia villosa ORIENTAL PHOTINIA
White flowers in rounded clusters in May. Leaves are lustrous. Red berries ripening in Summer and persisting until Winter. Foliage changes to a glorious red in Autumn.

2 to 3 ft.....	\$1.00	3 to 4 ft.....	\$1.25
----------------	--------	----------------	--------

Physocarpus - NINEBARK

Physocarpus opulifolius NINEBARK
Vigorous, wide-spreading, tall shrub that should be given plenty of room in the shrub border. Its attractive foliage makes it adapted for screen purposes. Grows anywhere, enduring even partial shade.

18 to 24 in.....	60c.	3 to 4 ft.....	\$1.00
2 to 3 ft.....	75c.	4 to 5 ft.....	1.25

P. opulifolius aureus GOLDEN NINEBARK
Similar to the preceding variety, but at first when the leaves appear they are bright yellow, later changing to golden yellow.

2 to 3 ft.....	75c.	3 to 4 ft.....	\$1.00
4 to 5 ft.....			\$1.25

P. opulifolius nana DWARF NINEBARK
Similar to opulifolius except that it grows only about 4 ft. tall.

2 to 3 ft.....	75c.	3 to 4 ft.....	\$1.00
----------------	------	----------------	--------

Prunus

Prunus glandulosa rosea DOUBLE PINK ALMOND
One of the most charming early-flowering shrubs, producing very double, rose-colored flowers in great profusion in the early Spring.

2 to 3 ft.....	\$1.50
----------------	--------

P. glandulosa sinensis DOUBLE WHITE ALMOND
Same as the preceding variety except that it has beautiful double white flowers.

2 to 3 ft. Available Fall.....	\$1.50
--------------------------------	--------

P. maritima BEACH PLUM
A spreading thorny shrub well adapted to sandy exposed locations. Dainty white flowers in April followed by showy edible purple fruits from which an excellent preserve may be made.

2 to 3 ft. Available Fall.....	\$1.25	3 to 4 ft.....	\$1.50
--------------------------------	--------	----------------	--------

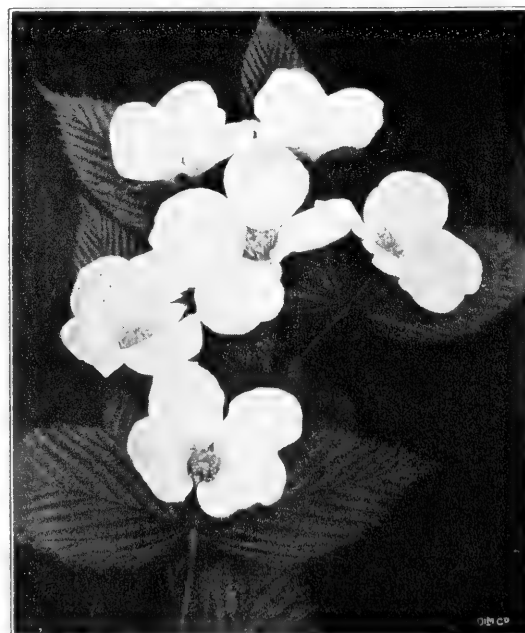

P. tomentosa MANCHU CHERRY
Compact, treelike bush with upright branches. In the early Spring it is covered with tiny pink buds which turn white after they open. The miniature red cherries appearing in late Summer are soon removed by the birds. A very neat shrub that should be more popular.

2 to 3 ft.....	\$1.25	3 to 4 ft.....	\$1.50
----------------	--------	----------------	--------

Rhodotypos - JETBEAD

Rhodotypos scandens BLACK JETBEAD
Of medium height, with single white flowers followed by shiny black fruit. A graceful shrub with handsome bright green foliage that grows well in semi-shade.

18 to 24 in.....	75c.	2 to 3 ft.....	\$1.00
3 to 4 ft.....			\$1.25

JETBEAD (Rhodotypos Kerrioides)

Rhus - SUMAC**Rhus aromatica****FRAGRANT SUMAC**

A spreading shrub. Conspicuous yellow flowers appear in early Spring. The thick, fragrant foliage turns dark crimson in Autumn. A good cover-plant for dry, rocky slopes.

18 to 24 in.75c. | 2 to 3 ft.\$1.00

Rosa - ROSE**Rosa Hugonis****GOLDEN ROSE OF CHINA**

Extremely graceful, arching shrub. Dainty, refined foliage that is practically hidden in May by a profusion of soft yellow, single, saucer-like flowers of delicate fragrance. Makes a hardy, handsome addition to any shrub border.

18 to 24 in.\$1.00 | 2 to 3 ft.\$1.25

R. multiflora**JAPANESE ROSE**

White flowers in profusion. Red berries to attract the birds. Makes a dense thicket of spiny growth and an impregnable hedge. Needs plenty of room.

9 to 18 in.10c. each, 30 or more 7c. each

18 to 24 in.35c. each, 30 or more 30c. each

2 to 3 ft.50c. each, 30 or more 45c. each

R. rugosa**RUGOSA ROSE**

A sturdy, upright, medium-sized shrub with bristly branches and clean, glossy green, wrinkled foliage. The large, single, fragrant, red flowers of a soft, silky crepe-paper texture appear in May and continue until September. Its brilliant Fall colors and bright red fruits make this variety attractive at all seasons. Absolutely hardy.

12 to 18 in.50c. | 2 to 3 ft.\$1.00

18 to 24 in.75c. | 3 to 4 ft.1.35

R. rugosa alba**WHITE RUGOSA ROSE**

Same as the preceding variety except that it has large, white flowers. Both varieties grow exceptionally well when planted at the seashore.

12 to 18 in.60c. | 2 to 3 ft.\$1.25

18 to 24 in.90c. | 3 to 4 ft.1.50

Salix - PUSSY WILLOW**Salix caprea****PUSSY WILLOW**

This familiar plant is the harbinger of Spring. Preferring moist soil.

2 to 3 ft.75c. | 3 to 4 ft.\$1.00

Sambucus**Sambucus canadensis aurea****GOLDEN ELDER**

Tall growing shrub with golden yellow foliage and red fruits.

2 to 3 ft.75c. | 3 to 4 ft.\$1.00

4 to 5 ft.\$1.25

Spiraea**Spiraea arguta****GARLAND SPIREA**

The most free-flowering and showy of the early-blooming Spireas. Graceful shrub of medium height, with feathery foliage. Early in May a profusion of dainty white flowers makes this a most charming sight.

18 to 24 in.75c. | 2 to 3 ft.90c.

3 to 4 ft.\$1.35

S. Bumalda, Anthony Waterer ANTHONY WATERER SPIREA

This popular Spirea is of dwarf growth. In July bright crimson flowers in flat heads appear on upright stems. Because of its low growth it works in well at the house foundation or foreground of the shrub border. Prefers a moist soil and sunny location. If the faded flower heads are clipped, the plant will bloom freely.

9 to 12 in.40c. | 15 to 18 in.80c.

12 to 15 in.60c. | 18 to 24 in.\$1.00

S. Bumalda Froebeli**FROBEL SPIREA**

Similar to the above, but grows taller and is less compact. The bright crimson flowers last the entire season.

15 to 18 in.50c. | 18 to 24 in.75c.

2 to 2½ ft.\$1.00

S. prunifolia**BRIDAL WREATH**

This beautiful, well-known Spirea has been neglected for the more popular Van Houttei. Its graceful form and double white flowers make it deserving of more use. With neat, dark green foliage that turns orange in the Autumn.

2 to 3 ft.\$1.00 | 3 to 4 ft.\$1.35

S. trichocarpa**KOREAN SPIREA**

Tall broad shrub. Flowers similar to Vanhouttei but later.

2 to 3 ft.90c. | 3 to 4 ft.\$1.25

S. vanhouttei**VAN HOUTTE SPIREA**

This beautiful shrub deserves its popularity, for it is one of the finest Spireas for massing or specimens. Its tall, slender branches arch gracefully under a load of white flowers, the last of May.

18 to 24 in.60c. | 3 to 4 ft.\$1.25

2 to 3 ft.90c. | 4 to 5 ft.1.50

**GARLAND SPIRAEA****Stephanandra****Stephanandra flexuosa****CUT-LEAF STEPHANANDRA**

The neat, clean foliage is finely and delicately cut. Graceful, fountain-like habit of medium height. The small white flowers and interesting foliage make it a most refined shrub for the house foundation or facing of the shrub border.

18 to 24 in.75c. | 2 to 3 ft.\$1.00

Symphoricarpos - CORALBERRY**Symphoricarpos Chenaulti**

An improved Coralberry with smaller, tidy foliage. The fruits are not conspicuous; however, it makes a nice low hedge and, like all the Symphoricarpos, does well in semi-shade.

18 to 24 in.60c. | 2 to 3 ft.75c.

3 to 4 ft.\$1.00

S. orbiculatus**INDIANCURRENT CORALBERRY**

A valuable variety for planting on banks, as it has a heavy root system. The flowers are greenish white and are followed by clusters of dark, purplish red berries. Grows well in the shade.

18 to 24 in.50c. | 2 to 3 ft.65c.

3 to 4 ft.90c.

S. racemosus**COMMON SNOWBERRY**

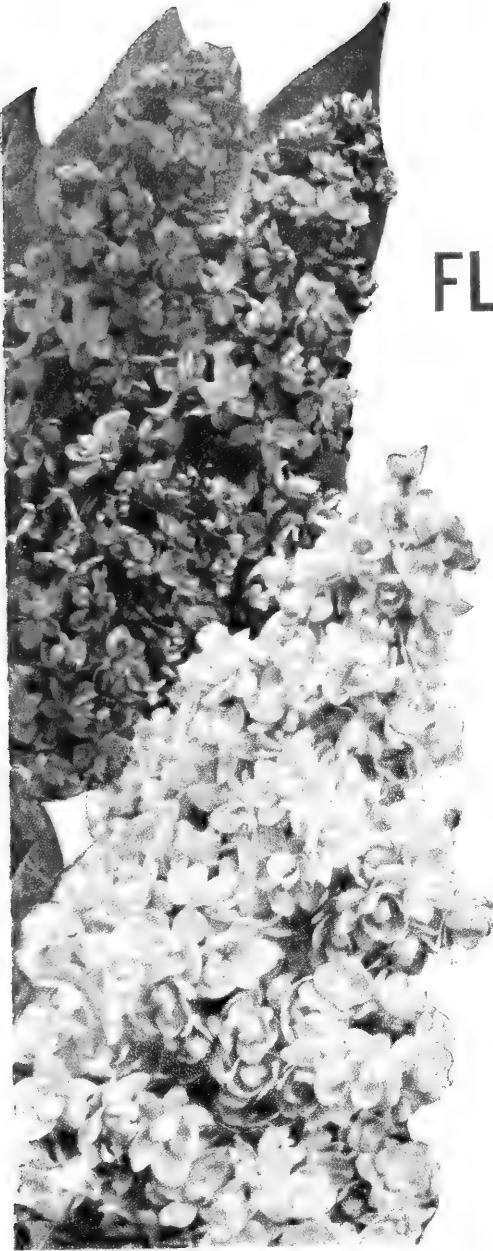

A bushy shrub with ornamental leaves and graceful, drooping branches, which in the Autumn are covered with white, waxy berries about the size of marbles. Grows well in partial shade.

18 to 24 in.60c. | 2 to 3 ft.75c.

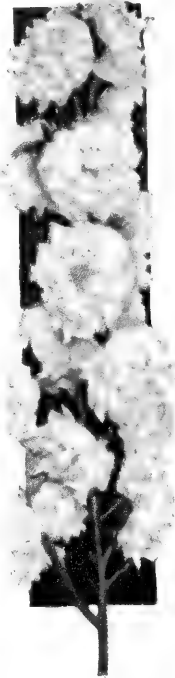

3 to 4 ft.\$1.00

Syringa - LILAC

FRENCH HYBRID LILACS

For flower size and range of color they are much superior to the common Lilac, and they are absolutely hardy.

All Lilacs grow better in a sweet soil. We, therefore, recommend an annual Fall application of lime. The following list contains many of the "Better Hybrid Lilacs."

Syringa chinensis (rothomagensis) CHINESE LILAC

Free-flowering, tall shrub with purplish lilac flowers in June.

18 to 24 in. Available Fall...75c. | 2 to 3 ft. Available Fall...\$1.00

S. japonica JAPANESE TREE LILAC

See page 18.

S. persica PERSIAN LILAC

Free-blooming, graceful shrub with refined foliage, smaller than the other Lilacs. Fragrant, pale purple flowers are borne in great profusion. Very satisfactory for the shrub border or hedges.

18 to 24 in.....75c. | 2 to 3 ft.....\$1.00
3 to 4 ft. Available Fall.....\$1.35

S. persica alba WHITE PERSIAN LILAC

Same general character as the above variety, only has white flowers.

18 to 24 in.....90c. | 2 to 3 ft.....\$1.25
3 to 4 ft.....\$1.50

S. villosa LATE LILAC

Late-blooming, tall shrub, with large leaves. The flowers are light pale pinkish in bud, opening to rosy white.

18 to 24 in.....75c. | 2 to 3 ft.....\$1.00
3 to 4 ft.....\$1.35

S. vulgaris COMMON PURPLE LILAC

No other shrub is more typically colonial than this popular, fragrant Lilac which is found on nearly every New England homestead. Absolutely hardy, and endures neglect and ill treatment.

18 to 24 in.....75c. | 2 to 3 ft.....\$1.00
3 to 4 ft.....\$1.35

S. vulgaris alba COMMON WHITE LILAC

Same general desirable characteristics as the preceding variety but having pure white, single, fragrant flowers.

18 to 24 in.....\$0.90 | 3 to 4 ft.....\$1.60
2 to 3 ft.....1.25 | 4 to 5 ft.....2.00

Tamarix

Tamarix pentandra FIVE STAMEN TAMARIX

Graceful, tall-growing shrub with interesting feathery foliage. In June it bears showy racemes of pink flowers. Prefers dry soil conditions and does very well at the seashore.

18 to 24 in.....75c. | 2 to 3 ft.....\$1.00
3 to 4 ft.....\$1.25

CLIMATE CONTROL

Your home can be made cooler in the Summer and warmer in the Winter by planting trees and shrubs in the proper places. Trees which will shade your roof and house walls from Summer heat will reduce your house temperature by 10%.

In the Winter they will shield you from Winter winds and reduce your fuel bills.

The evaporation of large quantities of water through the foliage produces a radiant cooling effect. Trees and shrubs are nature's air conditioners.

Let us help you control your PRIVATE CLIMATE.

Viburnum

Viburnum americanum AMERICAN CRANBERRY

Tall, native shrub with an open, spreading habit. Inconspicuous flowers followed by very ornamental red berries. The berries do not attract the birds, so they remain on the bush all Winter. The Fall foliage is especially brilliant. Available Fall.

V. dentatum ARROW-WOOD

Likes a moist soil and endures partial shade. A hardy native of New England with white flowers in May and June, followed in October by shiny blue-black berries. This variety is often the answer to difficult planting situations.

V. lentago NANNYBERRY

White flowers in May and June. Handsome shining foliage. Blue-black fruits on red stems with purple Autumn leaves.

V. molle KENTUCKY VIBURNUM

Flowers are produced in late May. (Later than others.) Sometimes called Silky Viburnum because of the foliage which is silky in effect.

V. opulus EUROPEAN CRANBERRY-BUSH

In the early Fall its brilliant scarlet fruits, hanging in large clusters, are most attractive.

V. opulus sterile COMMON SNOWBALL

This old-fashioned shrub with its snowball-shaped clusters of white flowers is attractive in May. Having sterile flowers, it, of course, has no fruits. Chiefly valued for its blooms. Available Fall.

Prices on above varieties of Viburnum:

18 to 24 in.....	80c.	2 to 3 ft.....	\$1.00
3 to 4 ft.....			\$1.25

V. Carlesi MAY-FLOWERING VIBURNUM

A real garden aristocrat. Compact shrub of medium height, with pretty pink and white flowers in a flat cluster 3 in. across. The individual blooms, which appear in April, resemble the Arbutus in form, color, and exquisite fragrance. No doubt the choicest of the Viburnums.

V. Juddi JUDD'S VIBURNUM

Compact, bushy plant. Clusters of small pink and white flowers. Similar to Carlesi.

Prices on above varieties of Viburnum:

12 to 18 in. In large paper pots.....	\$2.25
18 to 24 in. Balled and Burlapped.....	3.25
2 to 2½ ft. Balled and Burlapped.....	4.00
2½ to 3 ft. Balled and Burlapped.....	5.00
3 to 3½ ft. Balled and Burlapped.....	6.50

V. fragrans FRAGRANT VIBURNUM

Similar to Carlesi but blooms much earlier and is a deeper shade of pink. Vigorous, upright growth.

18 to 24 in. Balled and Burlapped.....	\$2.00
2 to 3 ft. Balled and Burlapped.....	2.50
3 to 4 ft. Balled and Burlapped.....	3.50

V. opulus nanum DWARF VIBURNUM

A very dwarf, compact, round-headed shrub. Very useful as a low hedge or formal border.

3 to 6 in.....75c. | 6 to 9 in.....\$1.00

Weigela

Weigela, Bristol Ruby (Plant Pat. No. 492)

Most profuse flowering of Red Weigelas. Flowers, ruby-red bells in June, then blossoms sporadically till frost. Heavy with foliage and a good grower.

2 to 3 ft.....\$2.00

W. rosea PINK WEIGELA

This is an old favorite. Medium to tall-growing shrub, covered in June with a profusion of rose-colored flowers. Very showy for the shrub border.

18 to 24 in.....75c. | 2 to 3 ft.....\$1.00
3 to 4 ft.....\$1.25

W. vaniceki

An improved Eva Rathke. Hardy and vigorous with a profusion of garnet crimson flowers in June, and then sparingly throughout the Summer. Reddish yellow Autumn foliage.

2 to 3 ft.....\$1.25 | 3 to 4 ft. Available Fall...\$1.50

Zanthorhiza - YELLOW ROOT

Zanthorhiza apiifolia YELLOW-ROOT

A low-growing shrub which makes a splendid ground cover. Will grow anywhere, but prefers a moist, shady location. The plum-colored flowers in April are not conspicuous, but in the Fall the foliage turns brilliant yellow and is both showy and handsome.

9 to 12 in., 2 year90c.

HARDY GARDEN FLOWERS (Perennials)

POTTED PLANTS: 50c. each, three for \$1.35, \$3.90 per 10, except where noted

Bring color to your garden with these plants which grow larger in beauty and in size each year. This list is the result of a *constant effort by our perennial department to discard inferior varieties and by adding only the worthwhile plants, thus ensuring you of the best for New England Gardens*

SUMMER VARIETY

- ✓ **Red Astrachan.** Large red. Ripens in August. Cross pollinators for McIntosh.

AUTUMN VARIETIES

- ✓ ***Early McIntosh.** Early ripening. Similar in texture and flavor to McIntosh.
- ✓ ***Fameuse or Snow.** Good red. Ripens in October.
- ✓ **Red Gravenstein.** Fine cooking Apple. Ripens October.
- ✓ ***Sweet Bough.** Yellow, early, sweet. For home orchard.

WINTER VARIETIES

- ✓ ***Baldwin.** Red, juicy, crisp. Self fruiting.
- ✓ ***Cortland.** Large red, similar to McIntosh, but ripens later.
- ✓ ***Delicious.** Yellow distinctive shape. Good keeper and pollinizer.
- ✓ **Galbraith Baldwin.** New variety of more intense red color.
- ✓ ***McIntosh.** Tender and juicy. New England's favorite red Apple.
- ✓ ***Northern Spy.** High quality and flavor. Good eating and cooking variety.
- ✓ **Red Delicious.** Large red, crisp, fine flavor.
- ✓ ***Tolman Sweet.** A good yellow sweet Apple for baking.

CRAB APPLES

- ✓ **Hyslop.** Large dark red. October.
- ✓ **Transcendent.** Red.

CHERRIES

Plant in Spring only—One year, \$2.50

- ✓ **Black Tartarian.** Large, sweet purplish-black fruit.
- ✓ **Montmorency.** Large, sour red. Best for canning.
- ✓ **Napoleon.** Yellow fruit, red cheek, sweet.
- ✓ **Schmidt Bigarreau.** Black, tempting to the eye and taste.
- ✓ **Windsor.** Late dark red, sweet.

SMALL FRUITS

ASPARAGUS

Two year, 25 plants, \$1.50; \$5.50 per 100

About 150 plants make a good bed for the average family. Plant 1 foot apart in rows 3 feet apart. Dig trenches 15 inches deep, putting manure in bottom. Plant 8 inches below the surface and cover 3 inches deep. Hill up next year.

BLUEBERRIES—Giant Hybrids

Plant either Spring or Fall

PEACHES

Plant in Spring only—One year, 9/16 inch caliper, \$1.50

Arranged in the order of their ripening

- ✓ **Belle of Georgia.** Early, best white flesh, freestone.
- ✓ **Early Elberta.** Same excellent qualities as Elberta.
- ✓ **Hale Haven.** Yellow freestone, heavy bearer.
- ✓ **Golden Jubilee.** Large yellow freestone, fine flavor.
- ✓ **Elberta.** Yellow freestone. Very popular.
- ✓ **J. H. Hale.** Very large yellow freestone.

PEARS

Plant in Spring only—Two year, 9/16 inch caliper, \$2.00

- ✓ **Bartlett.** Late Summer, best for eating and canning.
- ✓ **Beurre Bose.** Long neck russet. Late Fall.
- ✓ **Clapp's Favorite.** Earliest to ripen. Good quality.
- ✓ **Seckle.** Fall. Medium size. Rich flavor.
- ✓ **Sheldon.** Sweet and juicy. Ripens October.

DWARF PEARS

Two year, 9/16 inch caliper, \$2.50

- ✓ **Bartlett.** Late Summer.
- ✓ **Clapp's Favorite.** Late Summer.

PLUMS

Plant in Spring only—Not self pollinating

Two year, 9/16 inch caliper, \$2.00

- ✓ **Abundance.** Medium size, red, juicy yellow flesh.
- ✓ **Burbank.** Large cherry red. Ripens early September.
- ✓ **German Prune.** Blue freestone.
- ✓ **Stanley.** Fruit large dark blue, sweet and juicy.

QUINCE

Two year, \$2.00

- ✓ **Orange.** Large yellow. Very productive.

BLACKBERRIES

Two year, 25 plants, \$6.25; \$20.00 per 100

- ✓ **Alfred.** Large, black, seedless. **Eldorado.** Extra fine sweet berry.

GRAPE VINES

Plant either Spring or Fall

Trim every Winter, bearing in mind that fruit is borne on wood of the present season which grows from wood of the previous season.

RASPBERRIES

Strong two year..... 1 to 9, 25c. ea.; 10 to 100, 20c. ea.

- ✓ **Indian Summer.** Everbearing red. **Latham.** Large size, deep red fruit.
- ✓ **September.** New improved everbearing red.

1 to 9, 35c. ea.; 10 to 100, 30c. ea.

RHUBARB

Canada Red. Red stalks, mildly acid flavor.

Strong young roots..... 1 to 9, \$1.25 ea.; 10 to 100, \$1.00 ea.

FERTILIZERS—For Stronger Plants, Larger Blooms, Better Lawns

To help you keep your plantings in good, thrifty condition, we offer the materials and treatments which we have found most effective, and which encourage good, vigorous growth with a minimum of effort.

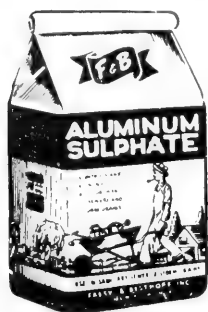

As new and more effective materials are developed, we will have them available at our garden store.

AGRICULTURAL LIME

A finely ground limestone for lawns. This may be applied any time but preferably in Spring or Fall so lawn will be attractive in Summer months. Rate of application is approximately 50 lbs. per 1000 square feet and is usually applied only once in two or three years.

25 lbs. 40c. | 50 lbs. 65c. | 100 lbs. \$1.20

ALUMINUM SULPHATE

A soil acidifier for acid-loving plants — Azaleas, Rhododendrons, Gardenias, Laurel, Heath, Holly, Yew, Viburnum, Andromeda, Blueberry, Magnolia, Dogwood, Hemlock, Black Alder. Imparts blue coloring to Hydrangeas.

5 lb. bag.....\$0.90

BONE MEAL

Pure steamed, guaranteed 2.47% Nitrogen, 23% Total Phosphoric Acid. A favorite organic slow-acting fertilizer for bulbs, perennial plants, trees, flowering shrubs and for all year round lawn application. Particularly effective in stimulating strong root systems.

5 lbs.....\$0.69
10 lbs.....1.29
25 lbs.....2.48
50 lbs.....4.00
100 lbs.....7.50

BORDEN'S 38

Fertilizer Compound

A new revolutionary type of nitrogen which lasts the entire growing season. Clean, odorless and easy to apply. Ideal for turf and ornamentals. This 38% nitrogen is released gradually and in quantities readily available as desired. Will not burn when applied in recommended doses, and won't leach or wash away.

Size of unit. 2½oz. 1 lb. 5 lbs. 25 lbs. 50 lbs.
Retail price. \$0.49 \$1.00 \$3.25 \$10.50 \$17.00

BROADLEAF HIGH ORGANIC 6-10-4

A 33 1/3% organic completely mineralized fertilizer for acid-loving plants — Azaleas, Rhododendrons, Gardenias, Laurel, Heath, Holly, Yew, Viburnum, Andromeda, Blueberry, Magnolia, Dogwood, Hemlock, Black Alder.

5 lbs.....\$0.75
10 lbs.....1.35

GLORION

A balanced combination of a complete fertilizer, soil conditioner and soil builder with the exclusive inclusion of organic-origin carbon humus. A complete plant food for lawns, flowers and shrubs.

2 lbs.....\$0.59
5 lbs.....1.29
25 lbs.....3.25
50 lbs.....5.95
80 lbs.....8.75

HIGH ORGANIC PELLETIZED

All Purpose—6-12-6

A dustless non-caking, free flowing, pelletized, properly balanced fertilizer containing 25% of organic nitrogen. Pellets do not adhere to foliage—thus virtually eliminating any danger of burning. High Organic Pellets are slowly soluble and therefore provide sustained scientific feeding for many months. High Organic Pellets are very economical because you use less of them than of lower test conventional fertilizers.

5 lbs.....\$0.75 | 100 lbs.....\$7.00
50 lbs.....3.75 | 500 lbs.....\$34.00

HY-TROUS

All-Purpose Liquid Fertilizer Concentrated—Odorless

A well balanced formula of 4-8-4 containing 20 vital trace elements valuable to healthy plant growth for house plants, shrubs, lawns, vegetable and flower gardens.

1 tablespoon makes 1 gallon

1 gallon bottle.....5.95

OLD DEERFIELD GREEN-LAWN FERTILIZER

8-6-4

An activated and balanced plant food scientifically mixed for lawns, trees, shrubs and flowers.

Contains 30% organic nitrogen, which will feed throughout the Summer months.

Apply evenly on the lawn at the rate of 1 to 2 pounds per 100 sq. ft. Sow this fertilizer only when the grass is dry.

25 lbs.....\$1.50 | 80 lbs.....\$4.00

OLD DEERFIELD TRU-ORGANIC FERTILIZER

5-4-0

A by-product of the Chicago Sewage System with a complete natural all organic plant food. Will not burn.

Apply evenly at the rate of 4 to 5 pounds per 100 sq. ft.

50 lbs.....\$2.00

PLANTRONS

12-24-12

A high potency chemical fertilizer made up in the form of beads, and packaged in containers that may be rolled over the lawn in a simple matter for easy distribution. Dissolves readily in water and the solution may be applied as a spray.

Method and amount of application is described with each package.

4 ozs.....\$0.39 | 5 lbs.....\$2.95
1½ lbs.....1.19 | 10 lbs.....5.85
25 lbs.....\$10.75

RA-PID-GRO

The foliage plant food for all types of plants. Safe, easy to apply, fast-acting. This remarkable balanced plant food may be sprayed on the leaves and absorbed quickly through the leaves or may be applied when watering plants and absorbed through the roots. Ra-Pid-Gro may be mixed and applied with most insecticides and fungicides—thus eliminating one entire spray process.

There is no danger of burning or overfeeding. It is very inexpensive.

SPRING FLOWERING BULBS

We import direct from Holland only first quality, top size bulbs. Ask for our special price list which will be ready about September 1st.

TULIPS, HYACINTHS, NARCISSUS

Plant this Fall for bloom next Spring.

INSECTICIDES and FUNGICIDES—
For Healthy Trees and Plants

Directions for using any of the following will be found on the package.

AFRICAN VIOLET SPRAY
Antrol Push Button

An insect bomb ready to use for the control of Aphids, Spider Mites, Thrips and certain other insects on African Violet, Ivy, Boston Fern, Fuschia, Philodendron and Rubber Plant.

6 ozs.	\$0.89
----------------	--------

ARAMITE

This powder when mixed with water (one pound to 18 gallons) produces a spray deadly to red spider.

4 lb. package.	\$4.50
One quart bottle containing Aramite and Black Leaf Forty will make five gallons of spray.	\$1.00

ARSENATE OF LEAD

A wettable powder for dusting or spraying to control chewing and subsurface insects.

4 lb. bag.	\$1.80
--------------------	--------

BLACK LEAF FORTY

Liquid. Mix one teaspoonful to a gallon of water for control of aphids and other sucking insects.

1 oz. bottle.	\$0.49	5 oz. bottle.	\$1.40
-----------------------	--------	-----------------------	--------

CHLORDANE—10% Dust

Easy to use with long residual action for the control of Ants and many other garden and lawn insects such as: Grub Worms, Grasshoppers, Crickets and Leaf Miners on Elms and Birches.

1 lb.	\$0.89
3 lbs.	1.98

CHLORDANE No. 8—Liquid

Assures total destruction of all soil grubs, wire worms, cut worms and ants. More effective than DDT on Jap. Beetle grubs. One application insures protection for three years.

4 oz. bottle.	\$1.00	16 oz. bottle.	\$2.75
-----------------------	--------	------------------------	--------

DDT 50%—SPRAY POWDER

For fly spray in and around buildings use sprays containing 2% of actual DDT. For Japanese beetles use 4%.

One pound of 50% Spray Powder mixed with 25 gallons of water will make a 2% solution.

4 lb. bag.	\$2.30
--------------------	--------

DI-MET

CRAB GRASS KILLER

Kills crab grass and many of its seeds in the soil as they germinate, without injury to turf. acclaimed by homeowners, landscape specialists, golf course superintendents.

Powder Form. Completely water soluble.
Trial Size: Covers up to 400 sq. ft. 39c. each.

Home Size: Covers up to 4000 sq. ft. \$2.95 each.

Liquid Form. Concentrated for Sprayers.
Small Size: Covers up to 5000 sq. ft. \$3.50 each.

DOOM—(Japanex)

A milky disease spore powder that spells DOOM to the Japanese beetle grubs. One application at the rate of eight ounces to 2000 square feet is sufficient.

$\frac{1}{2}$ lb. can.	\$3.00	5 lb. drum.	\$22.50
--------------------------------	--------	---------------------	---------

FERBAM SPRAY
A Fungicide

For use as a spray in the control of Leaf Spot, Rust, Black Rot, Bitter Rot, Fruit Spot, Black Spot, Powdery Mildew, Downy Mildew and anthracnose, also many other plant diseases attacking fruits, vegetables, flowers, and ornamentals. Mixes readily in water. (Half pound makes 50 gals. dilute spray.)

1 lb. can.	\$2.00
--------------------	--------

GARDEN DUST OR SPRAY
Insecticide—Fungicide—Repellent

For Flowers, Vegetables, Cukes and Melons

1. Contains: 1% Rotenone, Pyrethrins, Piperonyl Butoxide, and Neutral fixed Copper.

2. Controls: (a) Copper responding fungus diseases, Blight, Powdery and Downy Mildew, Leaf Spots and other minor diseases.

(b) Insects—Striped and Spotted cucumber Beetles, Melon Aphid, Squash Bugs, Cabbage Worm, Leafroller, Colorado Potato Beetle, Flea Beetle, Asparagus Beetle. (Contains no lime.)

1 lb. can.	\$1.25	3 lb. can.	\$3.00
--------------------	--------	--------------------	--------

GARDEN OIL SPRAY

1. Contains: High Quality Oil for both Summer and dormant spraying of Evergreens, Fruit Trees, Azaleas, Camellias, and shade trees.

2. Controls: Scale Insects, Red Mites, Mealybugs, White Fly, Pear Psylla, and egg stages of many other insects.

3. Excellent Leaf polish for tropical plants and other waxy foliage.

1 pt. bottle.	\$1.00
-----------------------	--------

KOLO FRUIT TREE
Dust or Spray

1. Contains: Kolo-Sulphur, DDT, and Malathion; all of extremely fine particle size and super-adhesive qualities.

2. Formulated for complete insect and disease control during the growing season.

3. Stays in suspension with only light agitation and gives a uniform deposit on the foliage.

4. Multi-purpose; can be used either as a Dust or a

Spray to control insects, diseases, and mites: Coddling Moth, Curculio, Tent Caterpillar, Case Bearer, Rose Chafer, Plant Bug, Leafhopper, Japanese Beetle, Apple Maggot, Oriental Fruit Moth, Twig Borer, Mites and many other chewing and sucking insects. Peach, Apple, and Pear Scab, Powdery Mildew, Brown Rot of stone fruits and many other less important diseases. (3 lbs. makes 25 gals. of dilute spray.)

1 lb. can.	\$1.10	3 lb. can.	\$2.65
--------------------	--------	--------------------	--------

INSECTICIDES—Continued

LINDANE 25—Spray or Dust

1. Contains: 25% Lindane in wettable powder form.

2. Controls: Aphis, Thrips, Japanese Beetles, Lacebugs, Lawn Moth, Midges, Birch Leaf Miner, Mole Crickets, Chinch Bugs, Earwigs, Flies, Ants, Mosquitoes, Roaches.

3. Economical: (1 lb. makes 100 gals. of spray.)

4. Seed Treater: 4 ozs. treats 100 lbs. of seed on Corn, Beans, Peas, Milo, Barley, Wheat and Okra to control Wireworms, Maggots and other soil insects which damage seed.

12 oz. can.....\$2.90

LINDANE LIQUID

For Roses, Flowers and Shrubs

1. Contains: 12% Lindane in emulsifiable form.

2. Controls: Aphis, Thrips, Japanese Beetles, Lacebugs, Lawn Moth, Midges, Birch Leaf Miner, Mole Crickets, Chinch Bugs, Earwigs, Flies, Ants, Mosquitoes, Roaches.

3. Economical: (1 pint makes 50 gals. of spray.)

1 pt. bottle.....\$2.30

MALATHION 50 LIQUID

1. Contains: 50% Malathion.

2. Controls: Aphis, Thrips, Spider Mites, Bean Beetles, Juniper Scale, Japanese Beetles Adults, Birch Leaf Miner, Bagworms, Pine Moth and Mealybugs on Evergreens, Roses, Ornamentals, Shrubs, Trees.

3. Controls flies around garbage areas.

1 oz. bottle...\$0.49 | 4 oz. bottle...\$1.05

1 pt. bottle.....\$3.15

ORNAMENTAL**Dust or Spray**

For Spruce, Evergreens, Shrubs, Flowers, and Shade Trees

1. Contains: Lindane, Methoxychlor, Aramite and Ferbam.

2. Multi-purpose dust or spray for control of SPIDER-MITES—(Aphis, Thrips, Japanese Beetle, Rose Chafer, Leafroller, Leafhopper, Rose Weevil, Lacebugs, Caterpillars, and many other chewing and sucking insects. Black Spot, Powdery Mildew, Rust and other less important diseases.)

1 lb. can....\$1.65 | 3 lb. can....\$4.25

POMO-GREEN**Dust or Spray**

For Roses and Ornamental Plants

1. Contains: Aramite, Lindane, Methoxychlor, Ferbam, and Sulphur.

2. Is leaf green in color to blend with foliage.

3. Multi-purpose; can be used either as a Dust or a Spray to control insects, diseases and mites: Aphis, Thrips, Japanese Beetles, Rose Chafer, Leafroller, Leafhopper, Rose Weevil, Lacebugs, Caterpillars, Red Spider Mites and many other chewing and sucking insects.

Black Spot, Powdery Mildew, Rust and other less important diseases.

GARDEN ACCESSORIES—Continued

FIELD AND GARDEN HOES

These hoes are light, correctly shaped, perfectly balanced. Blade and shank forged in one solid piece. Ash handles, spring pattern 4½ ft. long, 3¾ in. ferrules, cupped. \$2.40 each.

GRASS SHEARS

Seymour-Smith Eezy Specials

Sturdy, pressed steel construction. Smaller size makes it ideal for women. Natural, heat treated finished blades. Size overall 10¼ in. Blades have 4¾ in. cut. \$1.19 each.

HAND CULTIVATOR

Strong construction. Three pronged. Shank and center tine are one piece. 80c. each.

HANDY HOE

The answer to getting in between close plants. Reaches into every nook and cranny with its long handle and narrow blade. Cultivates and weeds by drawing through the ground—not chopping. \$1.50 each.

HANDY HOSE RACK

Can be attached near faucet in most any out-of-the-way location. Ideal for storing hose in Winter in garage. 90c.

HEDGE SHEARS

Wiss English Pattern

Hot dropforged, hardened, tempered, hollow ground, tapered, serrated blades. Rubber shock absorbers. 8½ in. blades. \$5.25 pair.

MAPLE PLANT TUBS

The inexpensive container for portable plants. They can easily be moved from sun or shade, or inside during colder weather. Top inside diameter 11 in. Inside depth 10 in. 90c. each.

MO-GO for MOLES

A control for moles to prevent lawn damage. Easy to use.

Small size... \$0.50 | 3½ oz. size... \$1.00

RAKE, GARDEN

An iron rake that is serviceable, and light, with one-piece forging making it extra strong. All teeth reinforced at the base and curved. Level head and ash handle. \$2.90 each.

RAKE, DISSTON SPRING-ACTION

The finest lawn rake made. Backbone spring, exclusive with Disston, takes strain of the teeth, and makes frame lighter and stronger. Selected 54 in. hardwood handle. \$3.95 each.

RAKE, GREEN THUMB ADJUSTABLE
LAWN BROOM

Flat, spring steel teeth, 14 in. long. Spread easily adjusted by turning wing nut and pushing handle in or out. 4 ft. ash handles. Can be almost instantly adjusted in width and stiffness to suit work. \$2.05 each.

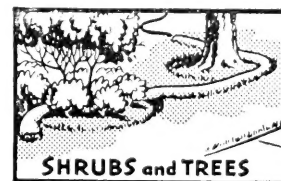

RAKE, McQUIRE'S BAMBOO LAWN
COMB

This rake has none of the damaging harshness of steel and due to its construction operates over the lawn like the fingers of a hand without injury to the most tender grass.

SPADES

A real garden spade made for transplanting, edging and cutting turf. Forged in one piece with full length backbone at center, tapering toward sides. Handle capped with steel braces against back of blade. \$3.85 each.

TROWELS

An English trowel with 6 in. solid forged shank, half polished and half painted blade. Polished hardwood handle. \$1.20 each.

WOODEN RAKES

Extra light and durable. Made from selected stock. A lawn rake that is really serviceable and not too large. 18 teeth on a 20 in. width. \$2.30 each.

National Eezy Wear Garden Gloves

PROTECT YOUR HANDS
with these
SOFT LEATHER GLOVES

Soft as kid—easy to wear—washable

Being all-leather, Eezy Wear gloves give complete protection against dirt, scratches, bruises, stains, infection. Yet their amazing softness and pliability, the result of a special processing, make them extra comfortable. Cling to the hands and practically give you BAREHAND FREEDOM. Sizes for WOMEN (small, medium, large) and MEN (small, medium, large). A real value at \$1.80 a pair, postpaid.

GUARANTEE

SIX MONTHS' GUARANTEE: We guarantee to furnish nursery stock in first class condition so that with proper after-care, losses will be reduced to a minimum. Should any stock purchased at our retail prices fail to grow within six months, we will resupply; however, any labor incidental to planting replacements must be paid for by the purchaser.

Should we not have the same plants in stock we reserve

the right to give credit for the amount paid or supply other plants of equal value.

We will cheerfully resupply any plant found not true to name, or we will refund the amount paid for the same, but it is mutually understood that at no time shall we be held responsible for a greater sum than the purchase price.

Our guarantee is void on accounts not paid within thirty days after date of invoice.

DELIVERIES:

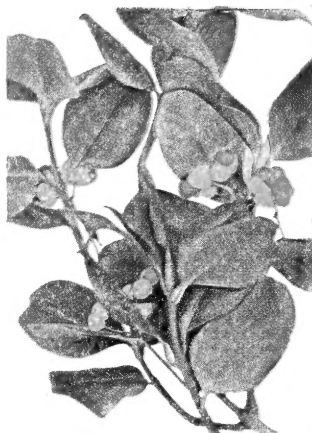

We can deliver without charge on such days as we have trucks in that particular section to the following counties in Massachusetts: Hampden, Hampshire, Franklin, Berkshire, and the western part of Worcester County. Also in Hartford County, Connecticut. If a customer desires delivery outside of our regularly scheduled delivery, or a specific day or hour, there will be a minimum charge of 45 cents per mile, one way for this special service.
